Bespoke concept

Bespoke è un termine inglese utilizzato dalle grandi firme della moda per identificare i vestiti fatti "su misura".

Kronos ha fatto propria questa filosofia per dare lo stesso tipo di servizio personalizzato ai clienti più esigenti, che possono quindi creare i pezzi speciali secondo le proprie esigenze sia estetiche che progettuali.

Lavorazioni manuali che rendono ogni opera unica ed irripetibile, riscoprendo l'antico valore dell'imperfezione.

Bespoke is an English term used by the big names in fashion to describe clothes that are made to measure.

Kronos has adopted this philosophy to give the same type of personalized service to the most demanding customers, who can create the special pieces according to their aesthetic and design needs.

Manual processes that make each job unique and unrepeatable, rediscovering the ancient value of imperfection.

Ripresa della costa

EDGE FINISH

La ripresa della costa consiste in un processo di lavorazione artigianale eseguito sul lato della piastrella (la costa). Tale processo migliora l'estetica dei nostri prodotti rendendoli più omogenei e naturali. Questa lavorazione è eseguita manualmente e dona al pezzo un forte carattere di unicità, generando un elemento dal design moderno e contemporaneo.

The EDGE FINISH is a manual process made in the edge of the tile. This process improves aesthetically our products in a more homogeneous and natural look. This hand crafted process makes each piece unique with a modern and contemporary design look.

Lettering

Il lettering personalizzato è una lavorazione speciale su misura con la quale è possibile realizzare scritte e loghi esclusivi direttamente sulla piastrella.

Un'iscrizione in basso rilievo messa in risalto dall'impasto a colore della piastrella che può impreziosire e rendere ancora più unico un ambiente, indipendentemente dalla sua destinazione d'uso.

Bespoke lettering is a custom procedure to create messages or logos in the surface of the tile. The engraving is highlighted by the coloured body of the tile, and it can add distinction and uniqueness to any environment, regardless of its intended use.
