Story

Storia

Histoire

Water as a source of origin

Brescia territory has always taken advantage of the wild waters of its rivers and of the placid surfaces of its lakes for its industrial and agricultural development.

IB was born in 1985 from Elio Bregoli's passion and high competence.

IB was born in 1985 from the passion and high competence of Elio Bregoli, president of the company. Built together with his wife Antonella, IB is enriched by their children's new ideas, enthusiasm and love for the profession. Andrea and Davide have recognized the value of tradition and have opened the business to international markets. However, the family is not only the one determined by blood ties, it is also the one we choose, the ones we love and the collaborative relationships that we build throughout a lifetime.

Being part of the IB world means being part of a family.

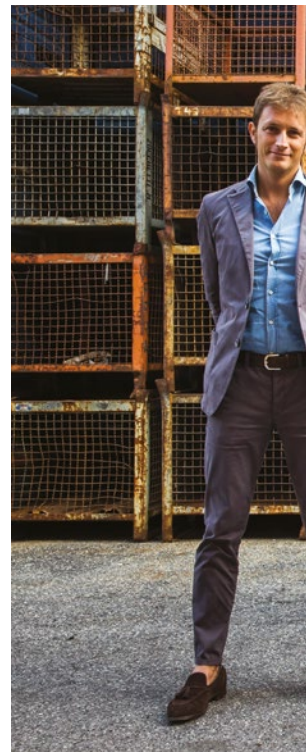

L'acqua come origine

Il territorio bresciano ha da sempre sfruttato le torrentizie acque dei suoi fiumi e le placide superfici dei suoi laghi per il proprio sviluppo industriale e agricolo.

IB nasce nel 1985 dalla passione e l'alta competenza di Elio Bregoli.

IB nasce nel 1985 dalla passione e l'alta competenza di Elio Bregoli, presidente dell'azienda. Fondata insieme alla moglie Antonella, IB si arricchisce grazie alle nuove idee, l'entusiasmo e l'amore per la professione, dei figli Andrea e Davide, che riconoscono il valore della tradizione e aprono l'azienda all'internazionalità. La famiglia non è peraltro solo quella determinata dai legami di sangue, è anche quella che noi ci scegliamo, gli affetti e le relazioni collaborative che intessiamo nel corso di tutta una vita.

Essere parte del mondo IB significa far parte di una famiglia.

L'eau comme origine

La région de Brescia a depuis toujours exploité les eaux torrentielles de ses rivières et les placides surfaces de ses lacs pour son développement industriel et agricole.

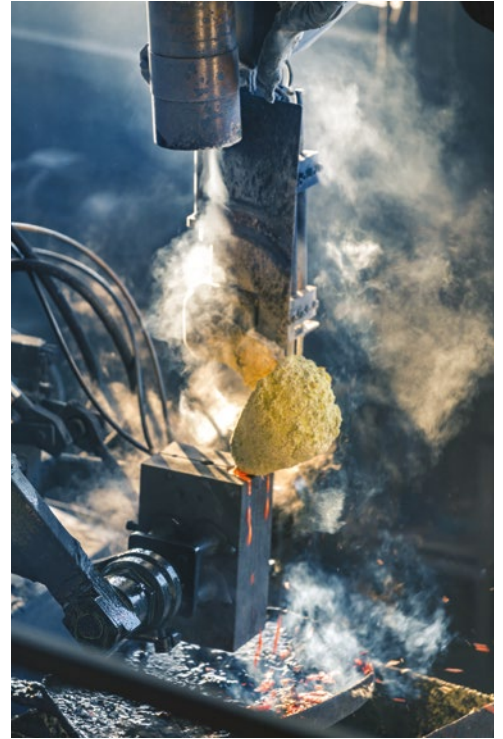

IB a été fondée en 1985 grâce à la passion et compétence d'Elio Bregoli.

IB a été fondée en 1985 grâce à la passion et à l'haute compétence d'Elio Bregoli, président de la société. Fondée avec son épouse Antonella, IB s'enrichit grâce aux nouvelles idées, à l'enthousiasme et à l'amour du métier des fils Andrea et Davide, qui reconnaissent la valeur de la tradition et ouvrent l'entreprise à l'internationalité. Toutefois, la famille n'est pas seulement déterminée par les liens de sang, elle est aussi celle choisie, les affections et les collaborations que nous tissons tout au long de notre vie.

Faire partie du monde IB, c'est faire partie d'une famille.

ENG

IB's products do not emerge just from tradition, but also from the encounter with the most advanced technological innovations and from an attention to details and to technical and aesthetic qualities without equal. Another revolutionary element is the desire to internalize the whole production chain: IB is involved in the manufacturing and the production of every single component, from the raw material to the most particular finishes.

An innovation that doesn't stop at the content, but also concerns the form. First in history, IB has become, since the beginning of the 2000s, a constant sponsor and collaborator in the field of Italian design, combining functionality of form with innovation in aesthetics. Therefore, our enterprise chooses the path of a design categorically made in Italy, as the only possible solution to create a future that learns from history and progresses towards new horizons.

**The goal is always
to develop
high-design
projects.**

Operative in sixty-four countries and over five continents, the IB brand has become the ambassador of Italian design production worldwide.

ITA

FRA

I prodotti di IB non sono solo frutto della tradizione, ma anche dell'incontro con le più avanzate innovazioni tecnologiche, e con un'attenzione al dettaglio e alla qualità tecnica ed estetica senza pari. Un ulteriore elemento rivoluzionario è la volontà di internalizzare l'intera catena produttiva: IB si occupa della lavorazione e produzione di ogni singolo componente dei suoi articoli da bagno, dalla materia prima fino alle più particolari finiture. Un'innovazione che non si ferma al contenuto, ma che riguarda anche la forma. Primo nella storia, IB si fa, fin dall'inizio degli anni Duemila, sponsor e collaboratore costante del mondo del design italiano, unendo funzionalità della forma a innovazione estetica. L'azienda sceglie così la via del design, categoricamente made in Italy, come unica soluzione possibile al fine di creare un futuro che impari dalla storia e progredisca verso nuovi orizzonti.

L'obiettivo è sempre quello di sviluppare progetti di alto design.

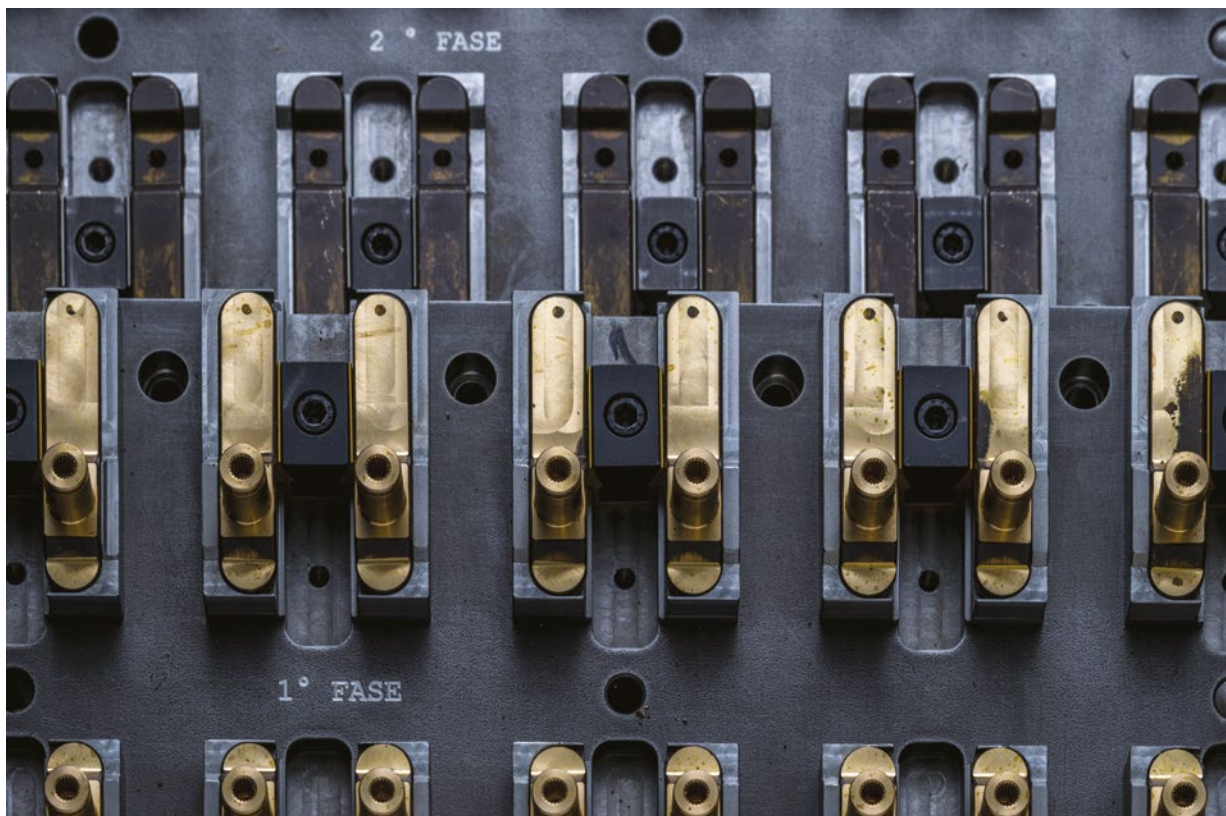

Presente in sessantaquattro paesi e in cinque continenti, il marchio IB si fa ambasciatore della produzione italiana di design in tutto il mondo.

Les produits IB ne sont pas seulement le fruit de la tradition, mais aussi de la rencontre avec les innovations technologiques les plus avancées, soucieuses du détail et d'une qualité technique et esthétique sans égal. Les éléments innovants se trouvent avant tout dans la méthode de fabrication de la matière première. Un ultérieur élément révolutionnaire est la volonté d'internaliser l'entière chaîne de production: IB s'occupe de la transformation et production de chaque composant pour ses articles, à partir de la matière première jusqu'aux finitions les plus particulières. Une innovation qui ne se limite pas au contenu, mais qui concerne également la forme. Première dans l'histoire, IB est devenue, à partir du début des années 2000, sponsor et collaborateur constant du design italien, combinant fonctionnalité et innovation esthétique. L'entreprise choisit ainsi la voie du design, catégoriquement made in Italy, comme la seule solution possible pour créer un avenir qui tire parti de l'histoire et progresse vers de nouveaux horizons.

Le but est toujours de développer des projets de haut design.

Présente dans soixante-quatre pays et sur cinq continents, la marque IB devient ambassadrice de la production et du design italiens dans le monde entier.

Learning from other cultures and suiting different economies, but always maintaining the best quality standards that Italy can offer, IB Rubinetti means to remain consistent with its identity and tradition, but also to confront and please every market needs and desires.

If it is true that water is a source of life and renovation, this statement has never been so true for an industrial production whose trademark and productive philosophy reflects this uninterrupted flow between tradition and innovation.

Imparando da altre culture e adattandosi a economie differenti, ma mantenendo sempre il migliore standard qualitativo che l'Italia possa offrire, IB Rubinetti si ripropone di rimanere sempre coerente alla sua identità e tradizione, ma anche di affrontare e soddisfare le necessità e i desideri di ogni mercato.

Se è vero che l'acqua è fonte di vita e di rinnovamento, questa affermazione non è mai stata così vera per una produzione industriale che del flusso continuo tra tradizione e innovazione ha fatto il suo marchio di fabbrica e la sua filosofia di produzione.

Apprenant des autres cultures et s'adaptant aux différentes économies, mais toujours en maintenant les meilleurs standards de qualité que l'Italie peut offrir, IB Rubinetti compte de rester cohérent à son identité et à ses traditions, tout en faisant face aux besoins et aux désirs de chaque marché.

S'il est vrai que l'eau est une source de vie et de renouveau, cette affirmation n'a jamais été si vraie que pour une production industrielle qui a construit sa marque et sa philosophie productive sur le flux continu entre tradition et innovation.

From the idea to the product.

The design and manufacturing processes of IB Rubinetti products take place entirely within the company: from design to engineering, from plating to assembly, each step is performed under the watchful eye and capable hands of our enterprise.

Il percorso di progettazione e fabbricazione dei prodotti IB si svolge integralmente all'interno dell'azienda: dal design all'ingegnerizzazione, dalla cromatura fino all'assemblaggio, ogni passaggio viene svolto sotto l'occhio attento e le mani esperte dei nostri operatori.

Le parcours de conception et de fabrication des produits IB Rubinetti se déroule entièrement à l'intérieur de l'entreprise: du design à l'ingénierie, du chromage à l'assemblage, chaque étape est réalisée sous les yeux vigilants et les mains expertes de notre société.

Material

IB Rubinetti uses all its expertise to promote innovation and customer care, starting from the choice of the raw material, a particular alloy of lead and zinc-free brass, which guarantees hypoallergenic and eco-friendly products.

IB Rubinetti mette tutta la sua esperienza al servizio dell'innovazione e della cura del cliente, a partire dalla scelta della materia prima, una particolare lega d'ottone priva di zinco e piombo che assicura un prodotto anallergico ed ecofriendly.

We are all finishes company.

Every human being is a range of perceptions, unrepeatable in its originality. IB Rubinetti allows you to decorate your bathroom choosing from a selection of sixteen finishes, directly attended by our chrome plating department, in order to mirror your incomparable personality in every detail. All finishes are made by IB with the best technology and know-how to guarantee your peace of mind.

From the faucet to the flush plate, one finishing, your favourite.

Ogni essere umano è un ventaglio inedito di sensazioni, irripetibile nella sua originalità. IB Rubinetti permette di ornare il tuo bagno scegliendo tra una gamma di sedici finiture, direttamente curate dal nostro reparto di cromatura, per riflettere in ogni dettaglio la tua ineguagliabile personalità. Tutte le finiture sono realizzate da IB con la migliore tecnologia per garantire la massima qualità.

Dal rubinetto alla placca del WC in un'unica finitura, la tua preferita.

Chaque être humain est un éventail de perceptions, unique dans son originalité. IB Rubinetti vous permet de décorer votre salle de bain en choisissant parmi une gamme de seize finitions, directement gérée par notre département de chromage, afin de retrouver dans les moindres détails votre incomparable personnalité. Toutes ces finitions sont fabriquées par IB avec la meilleure technologie et savoir-faire pour garantir votre tranquillité d'esprit. Du robinet à la plaque de commande WC, tout en une seule finition, votre favorite.

Trivalent Chrome (Cr³⁺)

Cromo trivalente (Cr³⁺)
Chrome trivalent (Cr³⁺)

Trivalent chrome (Cr³⁺) is a surface finishing technique used to protect and confer a chrome finish to brass. In this process, a layer of trivalent chromium is deposited on the surface of the metal to be treated using an electrolytic solution (electroplating).

Trivalent chromium has several advantages, the most important of which is that it is completely non-toxic to the environment and workers involved in the chrome plating process.

Il cromo trivalente (Cr³⁺) è una tecnica di finitura superficiale utilizzata per proteggere e conferire la finitura cromo all'ottone. In questo processo, uno strato di cromo trivalente viene depositato sulla superficie del metallo da trattare mediante una soluzione elettrolitica (riporto galvanico).

Il cromo trivalente presenta diversi vantaggi tra cui, il più importante, è completamente atossico per l'ambiente e per gli operatori che lavorano alla cromatura.

Le chrome trivalent (Cr³⁺) est une technique de finition de surface utilisée pour protéger et conférer la finition chromée au laiton. Dans ce procédé, une couche de chrome trivalent est déposée sur la surface du métal à traiter à l'aide d'une solution électrolytique (revêtement galvanique).

Le chrome trivalent présente plusieurs avantages, le plus important étant qu'il est totalement non toxique pour l'environnement et pour les opérateurs qui travaillent sur le chromage.

NANO 3 protection technology.

Tecnologia di protezione NANO 3
Technologie de protection NANO 3

This protection system is based on molecular technologies and is free from heavy metal particles and ions.

Special biopolymers adsorb on the contact surface and form a thick protective conductive layer down to a few nanometers. NANO 3 is suitable as a protection system for gold or gold-plated surfaces from 22 to 24 carats.

Questo sistema di protezione si basa sulle tecnologie molecolari ed è esente da particelle e ioni di metalli pesanti.

Biopolimeri speciali adsorbono sulla superficie di contatto e fino a qualche nanometro formano uno spesso strato protettivo conduttivo. NANO 3 è adatto come sistema di protezione per superfici in oro o placcate in oro da 22 a 24 carati.

Ce système de protection est basé sur des technologies moléculaires et est exempt de particules et d'ions de métaux lourds.

Des biopolymères spéciaux s'adsorbent sur la surface de contact et jusqu'à quelques nanomètres forment une épaisse couche protectrice conductrice.

NANO 3 convient comme système de protection pour les surfaces en or 22 à 24 carats ou plaquées or.

IB BOX

The brilliant way to think about water.

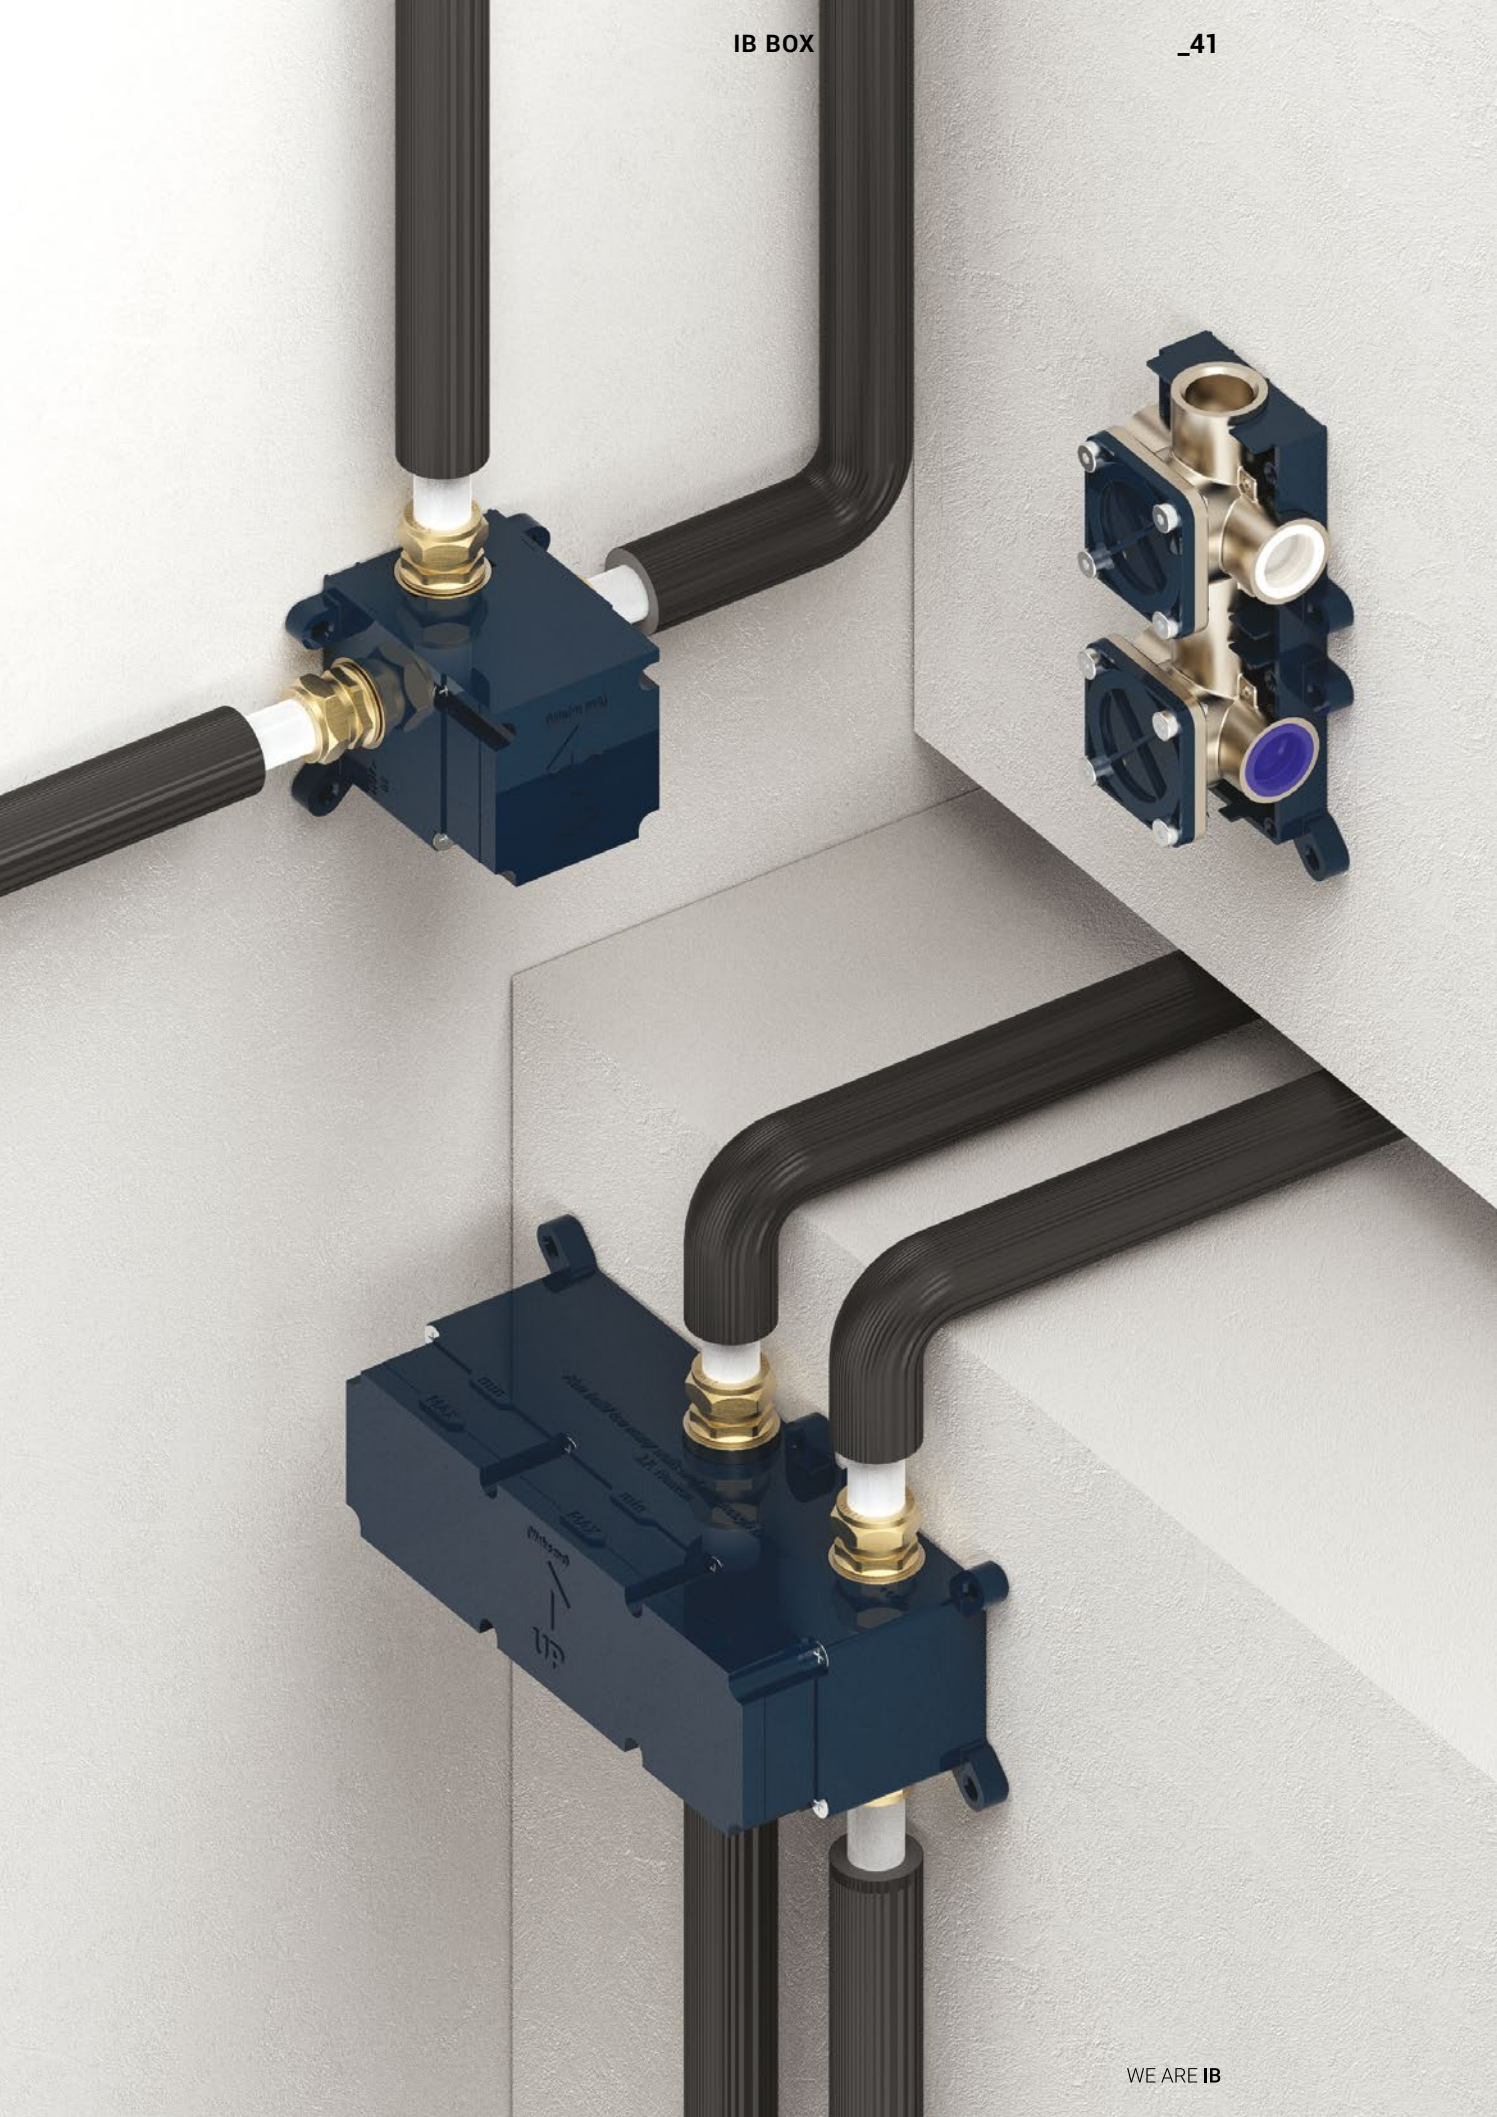

Il modo più geniale per ragionare l'acqua.
La façon la plus géniale de raisonner l'eau.

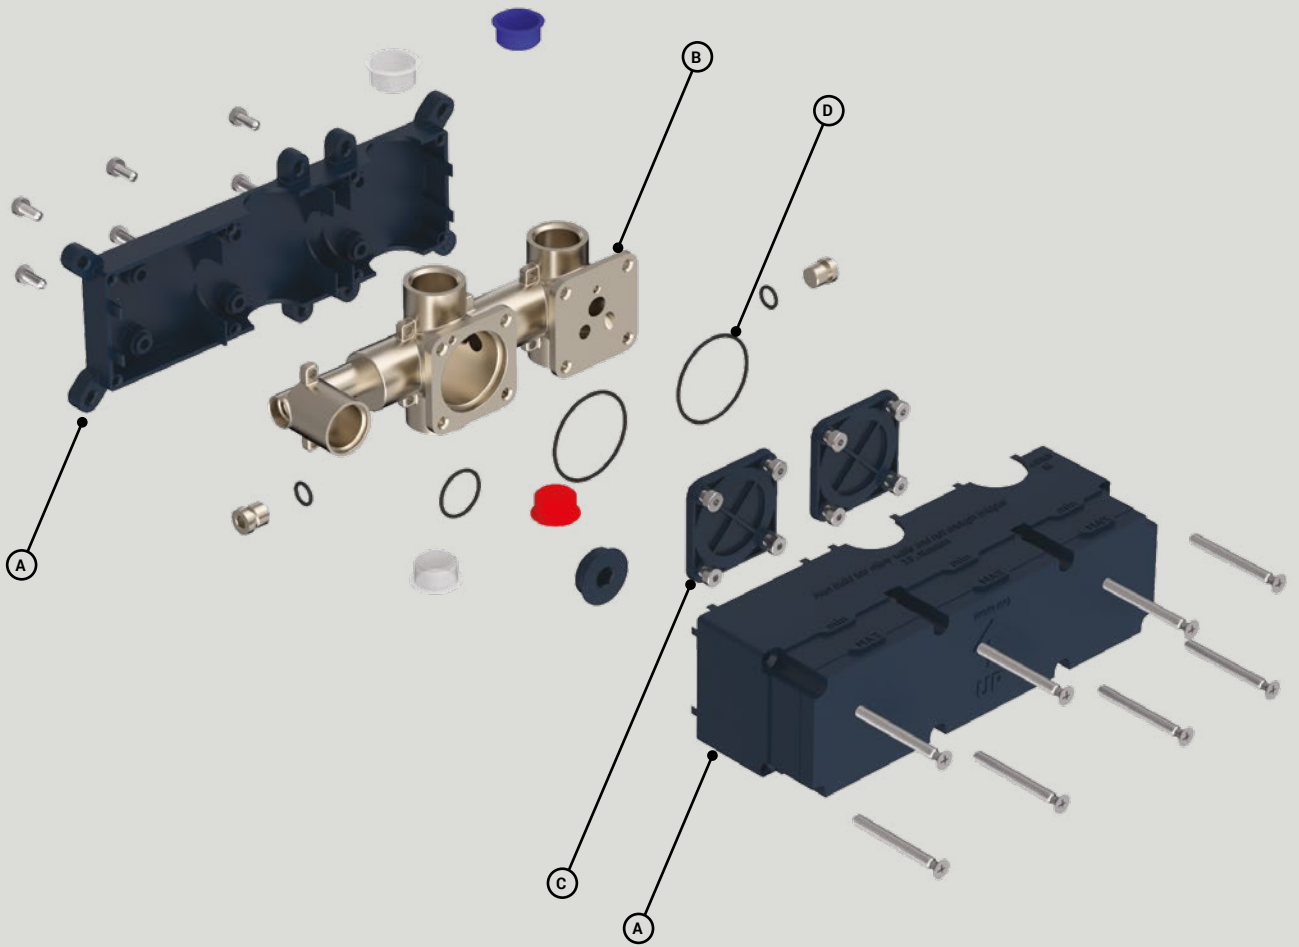

IB BOX is a universal water mixing system, ready to transform the traditional way of imagining the bathroom. Preliminarily fixed to the wall and adaptable to any IB Rubinetti collection, for faucets or showers, it guarantees thin and light appliances and an absolute and immediate creative freedom.

IB BOX è un sistema universale per la miscelazione dell'acqua, pronto a rivoluzionare il modo tradizionale di pensare il bagno. Preliminarmente montato a muro e adattabile a qualsiasi collezione IB Rubinetti, da lavabo o doccia, garantisce apparecchiature esili e leggere e una libertà creativa assoluta e immediata.

IB BOX est un système universel de mixage de l'eau, prêt à révolutionner la manière traditionnelle de penser à la salle de bain. Installé au mur de façon préliminaire et adaptable à toute collection IB Rubinetti, évier ou douche, il garantit un appareil mince et léger ainsi qu'une liberté de création absolue et immédiate.

Un case en plastique (A) antérieur et postérieur, muni de capsules de protection (C) elle aussi en plastique, contient et protège un corps en laiton (B), qui permet le raccordement au circuit hydraulique des composants extérieures à travers des joints (D) adaptables à tout produit IB Rubinetti sur le marché.

Features +

A handy and intuitive system, allowing the maximum performative efficiency and an easy implementation during assembly.

Un sistema comodo e intuitivo, che permette la massima efficienza performativa e una facile applicazione in fase di montaggio.

Un système pratique et intuitif qui permet la meilleure efficacité performative et une application simple en cours de montage.

+ QUICK INSTALLATION

Set up in just a few simple steps, it acts as a universal link for the connection to the hydraulic system.

INSTALLAZIONE RAPIDA

Installabile in poche semplici mosse, funge da tramite universale per l'allaccio all'impianto idraulico.

INSTALLATION RAPIDE

Installé en quelques étapes simples, il sert de lien universel pour la connexion au système hydraulique.

+ EFFICIENT

A unique product, of minimal dimensions and easy to install, which will make the bathroom design practical and fast.

EFFICIENTE

Un prodotto unico, di dimensioni minime e di facile installazione, che renderà la progettazione del bagno pratica e veloce.

EFFICACE

Un produit unique, de dimensions minimales et facile à installer, qui rendra la planification de la salle de bain pratique et rapide.

+ SAFE

The best safety standards are respected, in order to guarantee an efficient and reliable product.

SICURO

Sono rispettati i migliori standard di sicurezza per garantire un prodotto efficiente e affidabile.

SÉCURISÉ

Les meilleures normes de sécurité sont respectées pour garantir un produit efficace et fiable.

+ INTUITIVE

The intuitive device installation provides, in just a few simple steps, a ready-to-use connection support.

INTUITIVO

L'intuitiva installazione dell'apparecchiatura fornisce, in pochi semplici gesti, una base d'allaccio pronta all'utilizzo.

INTUITIF

L'installation intuitive de l'appareil fournit, en quelques étapes simples, une base de connexion prête à l'emploi.

+ EASY MAINTENANCE

The single and compact structure ensures a convenient and rapid maintenance of the system.

MANUTENZIONE COMODA

La struttura singola e compatta assicura un sistema dalla manutenzione comoda e istantanea.

MAINTENANCE PRATIQUE

La structure unique et compacte garantit un système du maintien pratique et instantané.

+ IMMEDIATE AVAILABILITY

The universal system allows to keep a single body in stock for all collections, thus optimizing storage space and ensuring versatility in distribution.

DISPONIBILITÀ IMMEDIATA

Il sistema universale permette di tenere in magazzino un unico corpo per tutte le collezioni, ottimizzando così lo spazio di stoccaggio e garantendo versatilità nella distribuzione.

DISPONIBILITÉ IMMÉDIATE

Le système universel permet de garder en stock un seul corps pour toutes les collections, optimisant ainsi l'espace de stockage et garantissant versatilité dans la distribution.

Simple but effective

In six simple steps, IB Box will be ready to ensure, immediately and in total safety, the essential support to all desires.

In sei semplici passi, IB Box sarà pronto ad assicurare, con immediatezza e in completa sicurezza, il supporto necessario a ogni desiderio.

En six simples étapes, IB Box sera prêt à assurer, avec promptitude et en toute sécurité, le support nécessaire à chaque désir.

STEP 1

The plastic case, which encloses and protects the brass heart, is directly secured to the rough plaster through a system of wall plugs.

Il case in plastica, che racchiude e protegge il cuore in ottone, viene direttamente assicurato all'intonaco grezzo attraverso un sistema di viti tassello.

Le case en plastique, qui entoure et protège le cœur en laiton, est directement fixé au plâtre brut à l'aide d'un système de vis à cheville.

STEP 2

Once fixed, it is connected to the bathroom hydraulic system in a simple and intuitive way, especially thanks to the instructions directly reported on the case, providing all the essential information.

Una volta fissato, esso viene collegato al sistema idraulico del bagno in modo semplice e intuitivo, grazie anche alle istruzioni direttamente riportate sul case, che forniscono tutte le indicazioni necessarie.

Une fois fixé, il est branché au système hydraulique de la salle de bain de manière simple et intuitive, grâce aux instructions affichées directement sur le case, qui fournissent toutes les informations nécessaires.

STEP 3

After having connected it to the hydraulic system, it is possible to proceed to the masonry work. The material chosen to decorate the wall will cover the equipment, leaving only the front case visible.

Dopo averlo allacciato al sistema idraulico, si può procedere al lavoro di muratura. Il materiale scelto per ornare la parete andrà a coprire l'apparecchiatura, lasciando visibile solo il coperchio anteriore.

Après l'avoir connecté au système hydraulique, il est possible de procéder aux travaux de maçonnerie. Le matériau choisi pour décorer le mur couvrira le dispositif, en ne laissant visible que le couvercle antérieur.

STEP 4

Once the work is completed, IB Box will be ready to use: you will simply have to remove the plastic cover to find inside the brass heart, ready for installation, perfectly flush with the wall.

A lavori ultimati, IB Box sarà pronto per essere utilizzato: basterà sfilare la copertura in plastica per ritrovare all'interno, perfettamente a raso parete, il cuore in ottone necessario all'installazione del prodotto.

Une fois les travaux terminés, IB Box sera prêt à être utilisé: il suffira de enlever la couverture en plastique pour y trouver à l'intérieur le cœur en laiton nécessaire à l'installation du produit, parfaitement au ras du mur.

STEP 5

The body of IB Box will therefore act as a connection base, to be completed with all the required seals, depending on the type of IB Rubinetti product desired.

Il corpo di IB Box fungerà quindi da base di allaccio, da completare con tutte le guarnizioni necessarie a seconda della tipologia di prodotto IB Rubinetti desiderato.

Le corps de IB Box servira donc de base de connexion, à compléter avec tous les joints nécessaires, en fonction du type de produit IB Rubinetti souhaité.

STEP 6

The super-thin plaque will then easily cover the connections, guaranteeing an elegant product, delicate in its simplicity and lightness, always ready to satisfy all the creative desires and inspirations.

La placca supersottile andrà poi facilmente a coprire gli allacci, garantendo un prodotto elegante e delicato per la sua semplicità e leggerezza, sempre pronto a soddisfare tutte le esigenze e gli estri creativi.

La plaque ultrafine couvrira alors facilement les connexions, garantissant un produit élégant et délicat par sa simplicité et à sa légèreté, toujours prêt à satisfaire tout besoin et toute fantaisie créative.

The reference is the archetype, the shape of the bottle.

Il riferimento è l'archetipo, la forma della bottiglia.

Le point de repère est l'archétype, la forme d'une bouteille.

The collection is inspired by the traditional form of the most iconic and sinuous liquid container, a bottle of water. The lever control, corresponding to the narrow neck of the bottle, allows a soft and vertical closing and opening of the water flow. The fluidity and the intuitive identity of the form is applied to the entire collection, which ranges from the ceiling washbasin mixer to the free-standing bath filler.

La serie è ispirata alla tradizionale forma di una bottiglia d'acqua, contenitore di liquidi sinuoso e iconico. Il comando di erogazione, corrispondente al restringimento del collo della bottiglia, permette un movimento di chiusura e apertura del flusso d'acqua morbido e verticale. La fluidità e l'intuitiva riconoscibilità della forma si estendono alla ricca collezione, che spazia dal lavabo mixer e a soffitto, fino al bordo vasca free-standing.

La collection s'inspire de la forme traditionnelle d'une bouteille d'eau, récipient de liquide sinueux et emblématique. La poignée de commande, correspondant au resserrement du col de la bouteille, permet un mouvement de fermeture et d'ouverture de l'eau doux et vertical. La fluidité et la notoriété intuitive de la forme concernent à l'entière riche collection, qui va du lavabo mixer à plafond jusqu'au bord free-standing de la baignoire.

DESIGN
GIULIO IACCHETTI

I like the idea that, only by watching the objects I designed, it's easy to connect them to the function they are appointed to perform.

Mi piace l'idea che guardando gli oggetti che disegno sia semplice ricondurli alla funzione che sono chiamati a compiere.

J'aime l'idée qu'il soit facile, juste en regardant les objets que j'ai conçus, de les ramener à la fonction qu'ils sont appelés à exécuter.

“ **Having to design a new faucet, I was inspired by the form of a bottle, the container for liquids par excellence ... for the handles I designed some inverted goblets and the shower is an umbrella handle!... It's still water, isn't it?!**

Dovendo progettare un nuovo rubinetto ho pensato alla bottiglia, contenitore per eccellenza di liquidi... per le manopole ho disegnato dei calici rovesciati e la doccia è il manico di un ombrello!... sempre di acqua si tratta no?!

Devant concevoir un nouveau robinet, j'ai pensé à une bouteille, le récipient de liquides par excellence... pour ce qui concerne les manettes, j'ai conçu des verres renversés et la douche est le manche d'un parapluie!... il s'agit quand même d'eau, n'est-ce pas?!

”

BELMONDO / ELLE

The sparkling elegance of the roaring Twenties and Thirties.

L'eleganza sfavillante dei ruggenti anni Venti e Trenta.
L'élégance étincelante des années rugissantes 1920 et 1930.

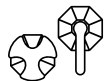

A collection inspired by the sparkling style of the roaring Twenties and Thirties, with its octagonal shapes that recall the stick figure of a diamond, with geometric and particularly sophisticated lines. This emblematic and refined collection, suitable for any domestic environment, is made even more versatile by the double set of levers available. The free-jet spout guarantees an immediate and spontaneous water flow.

Una serie ispirata allo stile sfavillante dei ruggenti anni Venti e Trenta, con le sue forme ottagonali che richiamano la figura stilizzata di un diamante, linee geometriche eleganti e tratti particolarmente sofisticati. Questa linea emblematica e raffinata, adatta a qualsiasi ambiente casalingo, è resa ulteriormente versatile dalla disponibilità di una doppia leva. La bocca a getto libero garantisce un flusso d'acqua immediato e spontaneo.

Une collection inspirée par le style étincelant des années folles 1920 et 1930, avec ses formes octogonales qui rappellent la silhouette stylisée d'un diamant, avec ses lignes géométriques élégantes et ses traits particulièrement sophistiquées. Cette collection emblématique et raffinée, apte à tous les environnements domestiques, est rendue encore plus polyvalente par la disponibilité d'un double levier. Le bec au jet libre garantit un débit d'eau immédiat et spontané.

DESIGN
MAURIZIO DURANTI

The name refers to the “beautiful world” of the Twenties and the Thirties, to the luxurious houses of those times, with real bathrooms and multiple fragrances.

Il nome si riferisce al “bel mondo” degli anni Venti e Trenta, a quelle case lussuose dell'epoca con vere stanze da bagno e tanti profumi.

Le nom fait référence au «monde magnifique» des années 1920 et 1930, à ces maisons luxueuses de l'époque, avec des vraies salles de bains et des nombreux parfums.

“ Through this project I wanted to go deep inside the culture of the period between the two world wars, inspiring myself above all to Jean Puiforcat, French artist and designer who worked during those years. Even if it reminds to sophisticated cultural atmosphere from that age, these objects are still deeply original and they don't concern with imitation styling.

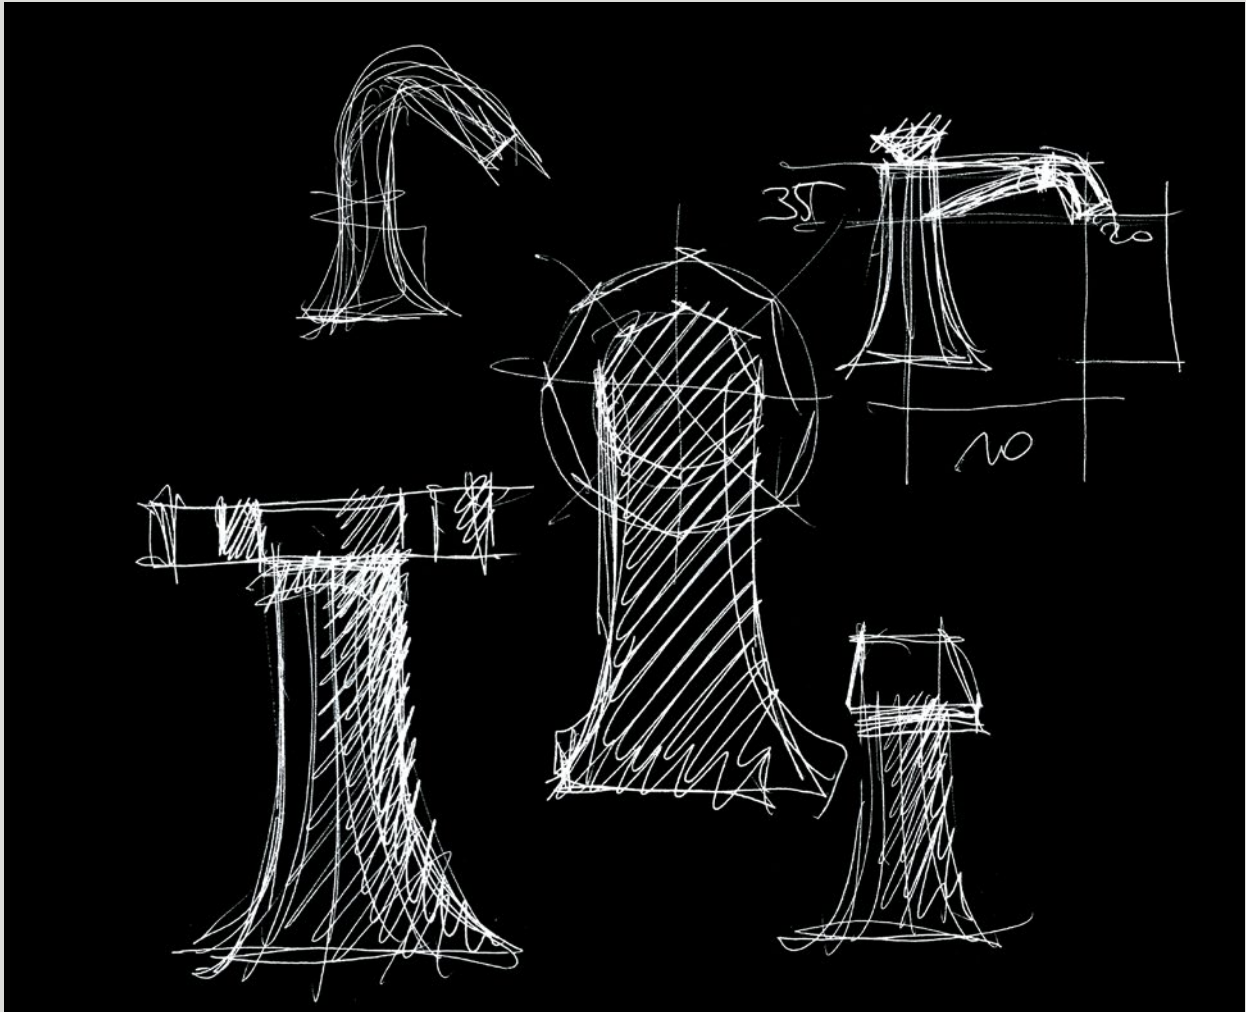

Ho voluto fare un'immersione culturale nel raffinato design del periodo fra le due guerre, ispirandomi liberamente, soprattutto alla figura di Jean Puiforcat, artista e designer francese operante in quegli anni. Pur rimandando ad atmosfere di sofisticato lusso di certi ambienti culturali di quell'epoca, tuttavia questi oggetti restano sempre appartenenti ad un ambito di originalità progettuale che non sconfina mai in styling d'imitazione.

À travers ce projet, j'ai voulu aller au cœur de la culture de l'entre-deux-guerres, en m'inspirant avant tout de Jean Puiforcat, artiste et designer français de ces années. Même s'ils évoquent l'ambiance culturel sophistiqué de ces années, ces objets demeurent quand même profondément originaux, peu intéressés à un style d'imitation.

”

!

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

BOLD ROUND & LEVER

The faucet collection for character spaces.

La collezione di rubinetti per ambienti di carattere.

La collection de robinets pour les espaces de caractères.

Inspired by the traditional forms of the industrial faucet, the Bold collection is marked by solid outlines and essential and functional forms, making it the better choice for spaces with strong features and personality. Available in thirteen different finishes and in two varieties of lever, Bold reinvents a regular design by capturing its essence and renovating it with the addition of little peculiar details, for a collection design bold like its name.

Inspirata alle forme tradizionali del rubinetto industriale, la collezione Bold è contraddistinta da contorni robusti e forme essenziali e funzionali, che la rendono adatta ad ambienti dal forte carattere e dalla personalità decisa. Disponibile in tredici differenti finiture e in due varietà di leva, Bold reinventa un design consueto catturandone l'essenza e rinnovandola tramite l'aggiunta di piccoli particolari non ordinari, per un design audace come il suo nome.

Inspirée à les formes traditionnelles du robinet industriel, la collection Bold se caractérise par des contours solides et des formes essentielles et fonctionnelles, qui la rendent apte aux environnements au caractère et personnalité forts. Disponible en treize finitions différentes et en deux typologies de poignée, Bold réinvente un design coutumier, en capturant son essence, en le renouvelant par l'adjonction de détails qui ne sont pas ordinaires et en créant ainsi un design audacieux comme son nom.

DESIGN
FEDERICO CASTELLI + ANTONIO GARDONI

The Bold collection is the perfect combination of elemental elements reinterpreted in a contemporary way.

La collezione Bold è la perfetta combinazione di elementi elementari, reinterpretati in chiave contemporanea.

La collection Bold est la combinaison parfaite d'éléments élémentaires réinterprétés de façon contemporaine.

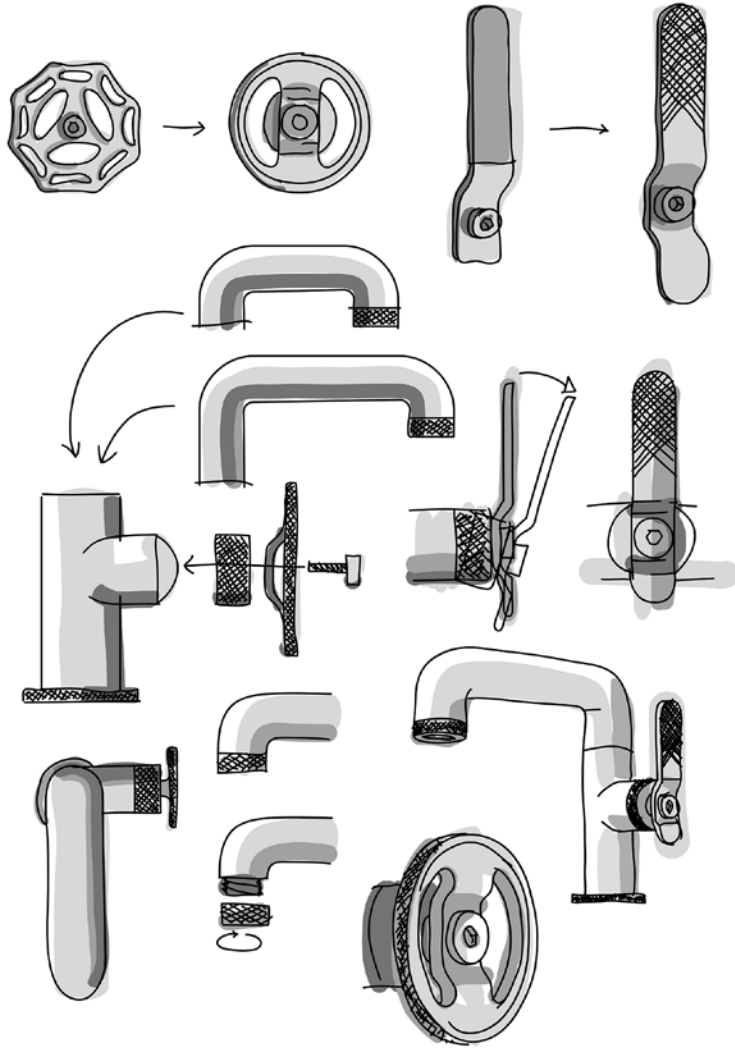

“ We have been fascinated by the utilitarian design of industrial valves taps, their proportions and strong features have been a great source of inspiration. At the same time we wanted to counterbalance this heavy look with an extremely refined range of finishes spanning going from matte black to natural brass and an extremely precise knurl etching on the grip connection details. The Bold collection is the perfect combination of elemental elements reinterpreted in a contemporary way to suit a large spectrum of bathroom styles and a precise clear statement about water control.

Siamo rimasti affascinati dal design funzionale delle valvole industriali dei rubinetti, le loro proporzioni e il loro carattere deciso sono stati una fondamentale fonte di ispirazione. Allo stesso tempo, volevamo controbilanciare questo look duro con una gamma altamente raffinata di finiture, che spaziano dal nero opaco all'ottone naturale, e di zigrinature incise sui dettagli delle manopole. La collezione Bold è la combinazione perfetta di elementi elementari, reinterpretati in chiave contemporanea per adattarsi a un ampio spettro di stili, e una precisa dichiarazione d'intenti riguardo al controllo dell'acqua

Nous avons été fascinés par le design fonctionnel des valves de la robinetterie industrielle. Leurs proportions et leur caractère résolu ont été une grande source d'inspiration. En même temps, nous voulions contrebalancer ce heavy look avec l'ajoute d'une gamme de finitions extrêmement raffinées, allant du noir mat au laiton naturel, et de gravures moletées sur les détails des manettes. La collection Bold est la combinaison parfaite d'éléments élémentaires, réinterprétés de façon contemporaine pour s'adapter à un large éventail de styles, et une déclaration claire de nos intentions au sujet du contrôle de l'eau. ”

BRERA

Simplicity synonymous with eternity.

La semplicità sinonimo di eternità.
Simplicité synonyme d'éternité.

A cylindrical and linear body is combined with a perfectly smooth lever, with a contemporary soul. Brera is a tribute to the IB showroom in Via Solferino in Milan, for a collection of style and timeless charm that refers to the Italian city of design par excellence. From washbasins to bathtub edges, from mixers to shower heads, the series offers all the faucet solutions for integrable projects in any living context.

Un corpo cilindrico e lineare si abbina a una leva perfettamente liscia, dall'anima contemporanea.

Brera è un omaggio allo showroom IB di via Solferino a Milano, per una collezione di stile e fascino senza tempo, che rimanda alla città italiana del design per eccellenza. Dai lavabi al bordo vasca, dai miscelatori ai soffioni doccia, la serie presenta tutte le soluzioni di rubinetteria per progetti integrabili a 360 gradi in qualsiasi contesto dell'abitare.

Un corps cylindrique et linéaire est associé à une manette parfaitement lisse, à l'âme contemporaine. Brera est un hommage au showroom IB en via Solferino à Milan, pour une collection au style et au charme intemporels, qui renvoie à la ville italienne du design par excellence. Des lavabos aux baignoires, des mitigeurs aux pommes de douche, la collection présente toutes les solutions de robinetterie pour des projets qui peuvent être entièrement intégrés dans n'importe quel contexte de vie.

BYE BYE

Born to make a difference.

Progettato per fare la differenza.
Conçu pour faire la différence.

The Bye Bye cover plates are a perfect mix of efficiency and refinement. Compatible with the Sigma toilet tanks and equipped with a double water flush, they can be customized in thirteen finishes matching the faucet collections, for a flawless elegance in your bathroom.

Le placche Bye Bye sono un mix perfetto di efficacia e ricercatezza. Compatibili con le cassette Sigma e dotate di scarico con doppio volume d'acqua, sono personalizzabili in tredici finiture coordinate alle collezioni rubinetti, per un bagno impeccabile nella sua eleganza.

Les plaques Bye Bye allient parfaitement l'efficacité au raffinement. Compatibles avec les réservoirs de chasse Sigma et équipées de double débit d'eau, elles peuvent être personnalisées en treize finitions, coordonnées aux collections de robinets, pour une salle de bains d'une élégance impeccable.

COLORE

Simple shapes, unique colorations.

Forme semplici, colorazioni uniche.
Formes simples, couleurs uniques.

Blue like Garda Lake, green like Mount Maddalena, yellow like the fields in Franciacorta. Colore is a tribute to the most fascinating landscapes of the Brescia territory, where IB is located. A collection with simple and linear shapes, enriched by a high-quality paintwork with powerful pastel finishes. Defined shades that enhance the design for a fresh and impactful mood.

Blu come il lago di Garda, verde come il monte Maddalena, giallo come i campi in Franciacorta. Colore è un omaggio ai paesaggi più affascinanti del territorio bresciano dove ha sede IB. Una collezione dalle forme semplici e lineari, arricchite da una verniciatura di altissima qualità con finiture pastello di grande potenza espressiva. Cromie definite che esaltano il design per un mood fresco e d'impatto.

Bleu comme le lac de Garda, vert comme le mont Maddalena, jaune comme les champs de Franciacorta. Colore est un hommage aux paysages les plus fascinants de la région de Brescia où IB est basé. Une collection aux formes simples et linéaires, enrichie d'une peinture de très grande qualité aux finitions pastel d'une grande puissance expressive. Des couleurs définies qui rehaussent le design pour une ambiance fraîche et percutante.

ELIO

A poem from the past, present and future.

Una poesia tra passato, presente e futuro.
Un poème entre passé, présent et futur.

Elio collection also features the opportunity of customizing its levers. In addition to the traditional smooth version for those who love a minimal design, Elio also offers an original and exclusive decorated version, with coral effects and unique textures inspired by the geometries of water, the sea world and nature. Through a thoughtful study of materials and a capable handcrafted production, the Elio coral-effect version is a surprising selection of artistic engravings in the bathroom design, that will conquer whoever is looking for beauty, art and style in their daily wellness space.

Elio si contraddistingue per la possibilità di personalizzazione delle leve. Oltre alla versione liscia, per chi ama un design più minimale, Elio propone un'originale ed esclusiva versione decorata, effetto corallo, con texture uniche ispirate alle geometrie dell'acqua, del mondo marino e della natura. Attraverso un sapiente studio dei materiali e una lavorazione artigiana, vere e proprie incisioni artistiche, la versione Elio effetto corallo è una proposta sorprendente nel mondo del bagno contemporaneo che saprà conquistare chi cerca bellezza, arte e stile per il proprio benessere quotidiano.

Elio se distingue également par la possibilité de personnaliser les leviers. En plus de la version lisse, pour ceux qui aiment un design plus minimal, Elio propose une version décorée originale et exclusive, effet corail, avec des textures uniques inspirées des géométries de l'eau, du monde marin et de la nature. A travers une étude habile des matériaux et de l'artisanat, véritables gravures artistiques, la version de Elio effet corail est une proposition surprenante dans le monde de la salle de bain contemporaine qui conquiert ceux qui recherchent la beauté, l'art et le style pour leur bien-être au quotidien.

Classic themes of art and architecture blend in Elio, by Archea Associati.

I temi classici dell'arte e dell'architettura ispirano Elio, disegnata da Archea Associati.

Les thèmes classiques de l'art et de l'architecture inspirent la Elio, conçu par Archea Associati.

Classic and pure forms inspire Elio's concept, the new IB collection designed by Archea Associati, able to revive the poetry of the arch, its shape and personality.

A timeless collection, beyond any trend and pattern, suitable for any type of environment and setting thanks to its pure essence, inspired by classicism, harmonic proportions and art, by the poetry of essential forms.

Classicità e forme pure ispirano il concept di Elio, la nuova collezione di IB disegnata da Archea Associati che ridà forma e carattere alla poesia dell'arco.

Una collezione senza tempo, oltre le mode e gli schemi, collocabile in ogni tipologia di ambiente grazie alla sua essenza pura, ispirata alla classicità, all'armonia delle proporzioni, all'arte, alla poesia dell'essenzialità.

Le classicisme et les formes pures inspirent le concept de la Elio, la nouvelle collection de IB conçue par Archea Associati qui donne forme et caractère à la poésie de l'arc.

Une collection intemporelle, au-delà des modes et des motifs, qui peut être placée dans tout type de milieu grâce à son essence pure, inspirée du classicisme, de l'harmonie des proportions, de l'art, de la poésie de l'essentialité.

GATSBY

1920s elegance, contemporary charm.

Eleganza anni '20, fascino contemporaneo.
Élégance des années 20, charme contemporain.

Inspired by the art deco style of the early 1920s, the Gatsby collection is a step back in time with a textured lever, decorated with one of the most iconic patterns of the era. A vintage grip of rare elegance that joins a simple and linear body of extreme formal compactness. 14 available finishes and a complete design applied to the entire range of bathroom faucets.

Ispirata all'art déco dei primi anni '20 del novecento, la collezione Gatsby è un salto indietro nel tempo con una leva zigrinata, decorata secondo uno dei pattern più iconici dell'epoca. Un grip d'antan di rara eleganza che si unisce a un corpo semplice e lineare di estrema compattezza formale. 14 finiture disponibili e un progetto completo declinato su tutta la gamma della rubinetteria da bagno.

Inspirée de l'art déco du début des années 1920, la collection Gatsby est un retour dans le temps avec un levier moleté, décoré selon l'un des motifs les plus emblématiques de l'époque. Une touche d'antan d'une rare élégance qui se combine avec un corps simple et linéaire d'une extrême compacité formelle. 14 finitions disponibles et un projet décliné sur toute la gamme de robinetterie de salle de bain.

For a correct installation it is **NECESSARY** that the external parts are mounted together with the universal concealed body.
 Per una corretta installazione è **NECESSARIO** che le parti esterne siano montate contestualmente al corpo incasso universale.
 Pour une installation correcte il est **NÉCESSAIRE** que les pièces externes soient montées en même temps que le corps universel.

HERMES / HERMES ELLE

**The true classic will be
current even in a hundred
years.**

Il vero classico è sempre attuale anche dopo cent'anni.
Le vrai classique sera d'actualité même dans cent ans.

True eternal classic of faucet design, Hermes recaptures and enhances the traditional forms of the faucet, providing a familiar decorative element, adaptable to both classic and contemporary settings. The wide range of products, especially in the rich shower section, is completed by two different levers, a more baroque and traditional one, and another with more feminine and delicate features.

Vero classico eterno del design di rubinetti, Hermes riprende e arricchisce le forme tradizionali del rubinetto, fornendo un elemento decorativo familiare, adattabile ad ambienti sia classici che contemporanei. La vasta gamma di prodotti, soprattutto nella ricca sezione doccia, è completata da due differenti leve, dal tratto più barocco e tradizionale o dalle fattezze più femmine e delicate.

Véritable classique du design des robinets, Hermes capture et enrichit les formes traditionnelles du robinet, en fournissant un élément décoratif familier, adaptable tant aux environnements classiques qu'à ceux plus contemporains. La vaste gamme de produits, en particulier dans la riche section douche, est complétée par deux leviers différents, l'un avec une touche plus baroque et traditionnelle, l'autre avec des traits plus féminins et délicats.

INDUSTRIA

Play the game of combinations.

Gioca al gioco delle combinazioni.
Joue les jeux des combinaisons

Collection of great versatility and taste, Industria combines some more traditional and linear forms with the charm of the knurls that enhance its shape. Available in eleven different finishes, applied to the body or to the details of the base, and accessible for the entire range of bathroom products, from the faucet to the bath, Industria leaves a wide space to personal inventiveness, allowing the creation of unique combinations, for an original and fresh product.

Di grande versatilità e gusto, la collezione Industria congiunge forme più tradizionali e lineari al fascino delle zigrinature che ne impreziosiscono la figura. Presente in undici finiture differenti, applicabili al corpo e ai dettagli della base, e disponibile per l'intera gamma di prodotti per bagno, dal lavabo al bordo vasca, Industria lascia ampio spazio all'estro personale, permettendo di realizzare combinazioni irripetibili, per un prodotto sempre inedito.

De grande versatilité et goût, la collection Industria associe des formes plutôt traditionnelles et linéaires au charme des crénelages qui embellissent la silhouette. Disponible en onze finitions différentes, applicables au corps et aux détails de la base, et disponible pour toute la gamme de produits, du lavabo à la baignoire, Industria laisse large place à la créativité personnelle, permettant la création de combinaisons uniques, pour un produit inédit.

2,2

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

K2

Rounded and essential outlines is the language of elegance.

Contorni arrotondati ed essenziali sono il linguaggio dell'eleganza.
Les contours arrondis et essentiels sont le langage de l'élégance.

A faucet should give delightful sensations when used. K2 has a soft and pleasant shape. This contemporary collection is inspired to my style made of simplicity and clean features - it is very refined and pragmatic.

Rounded and essential outlines, which honour the elegant and sophisticated author's design, by soberly integrating in all kind of environment.

Un rubinetto dovrebbe dare sensazioni piacevoli quando lo si usa. K2 ha una forma morbida e gradevole. Questa collezione contemporanea si ispira al mio stile fatto di semplicità e linee pulite, è elegantissima e funzionale.

Tratti arrotondati ed essenziali, che mantengono tutta l'eleganza e la sofisticatezza del design d'autore, integrandosi sobriamente in tutti gli ambienti.

Un robinet devrait donner des sensations agréables lors de son utilisation. K2 possède une forme douce et agréable. Cette collection contemporaine est inspirée par mon style, fait de simplicité et de lignes épurées. Elle est très élégante et fonctionnelle. Les traits arrondis et essentiels conservent toute l'élégance et la sophistication du design de l'auteure, en s'intégrant sobrement dans tout environnement.

K3

Sharp and essential outlines is the language of elegance.

Contorni netti ed essenziali sono il linguaggio dell'eleganza.
Les contours nets et essentiels sont le langage de l'élégance.

K3 incorporates the elegance and sobriety of the K2 twin collection, but with a slightly sharper cut, thanks to the square shapes at the base and in the lever that add a touch of unpredictability and character to a collection still recognizable for its refinement and its aesthetic measure.

K3 riprende l'eleganza e la sobrietà della linea gemella K2, ma con un taglio leggermente più deciso, dalle forme squadrate alla base e nella leva del rubinetto che aggiungono un tocco di imprevedibilità e carattere a un serie sempre riconoscibile per la sua eleganza e misura estetica.

K3 incorpore l'élégance et la sobriété de la ligne jumelle K2, mais avec une touche légèrement plus résolu, avec ses formes carrées à la base et au levier qui ajoutent une touche d'imprévisibilité et de caractère à une série toujours reconnaissable pour son élégance et sa mesure esthétique.

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

KUSASI

A small wave that interrupt the straight trait.

Una piccola onda che interferisce interrompendo la linea retta.
Une petite onde qui interfère en interrompant la ligne droite.

A fragmented line, a small wave that interferes interrupting the straight trait: the Kusasi collection represents the contrast between a squared and linear volume and a curvilinear rebel detail, that interrupts its geometry by softening it. The traditional lever can be replaced by a shorter one, accentuating the sinuous wavy features.

Un tratto non lineare, una piccola onda che interferisce interrompendo la linea retta: la collezione Kusasi rappresenta il contrasto tra un volume squadrato e lineare e un particolare curvilineo ribelle, che ne interrompe la geometria, ammorbidendola. La leva tradizionale può essere sostituita da una più corta, ad accentuare il sinuoso tratto ondivago.

Un trait non linéaire, une petite onde qui interfère en interrompant la ligne droite: la collection Kusasi représente le contraste entre un volume carré et linéaire et un détail curviligne rebelle, qui interrompt sa géométrie et l'adoucit. Le levier traditionnel peut être remplacé par un levier plus court, pour accentuer la sinueuse ligne ondulée.

LOVEME

The spontaneous downpour of a small domestic waterfall.

Lo scrosciare spontaneo di una piccola cascata domestica.
Le crépitement spontané d'une petite cascade domestique.

To love means, first and foremost, to take care of oneself, starting from our daily home life. The LoveMe collection enhances the free flow of water by replacing the directed jet with the spontaneous downpour of a small domestic waterfall. The water flows in a soft and natural outflow, like spouting directly from its source, thus combining aesthetic purity and genuine authenticity.

Amare significa innanzi tutto avere cura di sé, a partire dalla propria quotidianità casalinga. La serie LoveMe esalta il flusso libero dell'acqua, sostituendo il getto direzionato con lo scrosciare spontaneo di una piccola cascata domestica. L'acqua scorre in un efflusso morbido e naturale, come se sgorgasse direttamente dalla sua fonte, coniugando così purezza estetica e genuina spontaneità.

Aimer, c'est d'abord prendre soin de soi-même, à partir de la vie quotidienne et domestique. La série LoveMe glorifie le libre écoulement de l'eau en remplaçant le jet dirigé par le crépitement spontané d'une petite cascade domestique. L'eau s'écoule de manière douce et naturelle, comme si elle jaillissait directement de sa source, alliant ainsi pureté esthétique et spontanéité authentique.

CASCADE

LoveMe

DESIGN
MAURIZIO DURANTI

Self-care through the pleasure of a small waterfall, a synonym for life.

La cura di sé tramite il piacere di una piccola cascata d'acqua, sinonimo di vita.

Soin de soi, à travers le plaisir d'une petite cascade, synonyme de vie.

LoveMe

“ Love Me tell about my way of understanding design: narrative, simple, but also valuable and stimulating. Design must simultaneously create desires and satisfy functions. I find the English concept of “understatement” fascinating: the essence rather than the appearance, a low-key quality. Thus LoveMe alludes to the more abstract concept of self-care through the pleasure of a small waterfall, a synonym for life. This collection, which is the one that gave me the biggest satisfaction and that gave birth to a new way of designing faucets. In hindsight, I think that LoveMe is timeless.

Love Me racconta il mio modo di concepire il design: narrativo, semplice, ma anche prezioso e stimolante. Il design deve contemporaneamente creare desideri e soddisfare funzioni. Trovo affascinante il concetto inglese di “understatement”: l'essenza più che l'apparenza, il sottotono di qualità. Così LoveMe allude a un concetto più astratto, la cura di sé tramite il piacere di una piccola cascata d'acqua, sinonimo di vita. Questa è la serie che mi ha dato più soddisfazioni e che ha dato vita a un nuovo modo di concepire i rubinetti. Con il senno del poi, penso che LoveMe sia senza tempo.

Love Me raconte ma façon de concevoir le design: narratif, simple, mais aussi précieux et stimulant. Le design doit simultanément créer des désirs et satisfaire des fonctions. Je trouve fascinant le concept anglais de “understatement”: l'essence plutôt que l'aspect, le profil bas de qualité. Si LoveMe fait allusion au concept plus abstrait du soin de soi, à travers le plaisir d'une petite cascade, synonyme de vie. C'est la série, celle qui m'a donné le plus de satisfaction et qui a créé une nouvelle façon de concevoir les robinets. Avec un peu de recul, je pense que LoveMe est éternelle.

MARMO / MARMO ELLE

Never can be two identical Marmo.

Non esisteranno mai due Marmo identici
Jamais il n'y aura deux Marmo identiques

A synthesis between eternity and current fashion, tradition and fantasy. The Marmo collection focuses on the quality of the raw material, carefully selected and processed in order to obtain a thin and resistant case, perfect in its cylindrical shape and original in its uniqueness.

The hand-made stone conceals inside an innovative compact mixer, which provides the highest technological performances in the slightest space.

Una sintesi di eternità e attualità, di tradizione e fantasia. La serie Marmo è incentrata sulla qualità della materia prima, attentamente selezionata e lavorata al fine di ottenere un involucro sottile e resistente, perfetto nella sua forma cilindrica e originale nella sua irripetibilità.

Lavorata a mano, la pietra nasconde al suo interno un miscelatore compatto innovativo, che in un minimo spazio fornisce le più alte performance tecnologiche.

Une synthèse entre éternité et modernité, tradition et fantaisie. La collection Marmo est axée sur la qualité de la matière première, soigneusement sélectionnée et traitée afin d'obtenir une enveloppe fin et résistante, parfaite dans sa forme cylindrique et originale dans sa unicité.

Ouvragée à la main, la pierre cache un mixeur compact innovant qui offre les meilleures performances technologiques dans le moindre espace.

Marmo

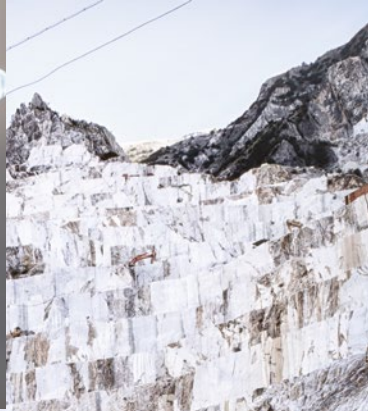

DESIGN
FEDERICO CASTELLI + ANTONIO GARDONI

Marmo is a bathroom collection where the uniqueness of the stone and the unpredictable veins of the marble make every piece of the series unique: there can't be two identical Marmo.

Marmo è una collezione di rubinetti che sfrutta l'unicità della pietra e le sue venature imprevedibili: non esistono due Marmo identici, ogni elemento della collezione è in modo naturale un pezzo unico.

Marmo est la collection pour la salle de bain où l'unicité de la pierre et les veines imprévisibles du marbre font de chaque unité un pièce unique : jamais ne pourrait-il y avoir deux Marmo identiques.

Marmo

Marmo is the result between the combination of industrial processes and the know-how of the best Italian artisans translated in to simple geometric shapes enriched with the intrinsic aesthetic of the material. The series comprehends different elegant products designed in several finishes; the marble parts are produced in white Carrara and black Marquina while the metal elements are made out of brass in chrome, white, black, gold, brushed nickel and gold rose finishes. This makes Marmo satisfying different needs, styles and tastes.

Marmo nasce dall'unione tra innovazione tecnologica e artigianato tradotta in forme essenziali e geometriche arricchite dall'estetica intrinseca del materiale. Marmo è una linea di prodotti elegante disegnata in diverse finiture; le parti in marmo sono realizzate in bianco Carrara o nero Marquina, mentre gli elementi metallici sono in ottone con finitura cromo, bianco, nero, oro, nickel spazzolato e oro rosa. Questo rende Marmo versatile e adattabile a un ampio numero di ambienti.

Marmo est le résultat d'une combinaison entre la production industrielle et le meilleur savoir-faire artisanal italien, traduit dans des formes géométriques simples, enrichies par la seule esthétique intrinsèque au matériel. La série comprend plusieurs produits élégants, conçus en plusieurs finitions ; les éléments en marbre sont fabriqués en Carrara blanc et Marquina noir, alors que les éléments métalliques sont ornés de finitions en laiton chromé blanc, noir, or, nickel brossé et rose doré. Tout ces éléments permettent à Marmo de satisfaire les besoins, les styles et les goûts les plus variés.

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.
Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.
Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

Marmo

MILANOTORINO

Simple and versatile shapes as a trait of strength and identity without equal.

Forme semplici e versatili come tratto di forza e identità senza eguali.
Formes simples et polyédriques un trait de force et d'identité sans égaux.

Two great eclectic cities, two Italian cultural and economical capitals, two original and a little bit crazy souls, joined in the name of a famous cocktail with a strong and uncompromised flavour. From the name of the aperitif with an intense character and flavour, the vigorous and audacious MilanoTorino collection is born, whose versatility becomes a trait of strength and identity without equal.

Due grandi città eclettiche, due capitali della cultura e dell'economia italiana, due anime originali e un poco pazze, unite nel nome di un famoso cocktail dal sapore forte e senza compromessi. Dal nome dell'aperitivo dal carattere e dal sapore intensi, nasce una collezione vigorosa e audace, che fa della sua poliedricità un tratto di forza e di identità senza eguali.

Deux grandes villes éclectiques, deux capitales de la culture et de l'économie italiennes, deux âmes originales et un peu folles, réunies dans le nom d'un célèbre cocktail à la saveur résolue et sans compromis. Du nom de l'apéritif au caractère et à la saveur intenses est née une collection vigoureuse et audacieuse, qui fait de son essence polyédrique un trait de force et d'identité sans égaux.

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

ONLYONE

Simplify everything in a single gesture.

Semplificare tutto in un unico gesto.
Simplifiez tout à travers un seul geste.

Innovation begins with the discovery of ancient forms for new purposes. In OnlyOne, the features of a traditional tube, as a typical industrial water container, shape a new product with a traditional and yet original design. Innovation also means to combine aesthetics and high practicality: that's why OnlyOne focuses on a fast and simple gestural action, enabling to open and direct the water flow with just one hand, thus creating the effect of a small man-operated waterfall.

L'innovazione parte dalla riscoperta di antiche forme per nuovi utilizzi. In OnlyOne, le fattezze di un tubo, tradizionale contenitore industriale d'acqua, modellano un nuovo prodotto, dal design tradizionale e al contempo originale. Innovazione significa anche affiancare estetica e alta funzionalità: ecco perché OnlyOne punta su una gestualità veloce e semplice, che con una sola mano permette di aprire e direzionare il flusso d'acqua, creando l'effetto di una piccola cascata manovrata dall'uomo.

L'innovation commence par la redécouverte de formes anciennes pour des nouveaux usages. Dans OnlyOne, les formes d'un tuyau, le traditionnel réservoir d'eau industriel, façonnent un nouveau produit au design à la fois traditionnel et original. Innovation c'est aussi allier esthétique et haute fonctionnalité: c'est pourquoi OnlyOne se concentre sur une gestualité simple et rapide qui, d'une seule main, ouvre et dirige l'écoulement d'eau, créant ainsi l'effet d'une petite cascade manœuvrée par l'homme.

OnlyOne

DESIGN
LORENZO DAMIANI

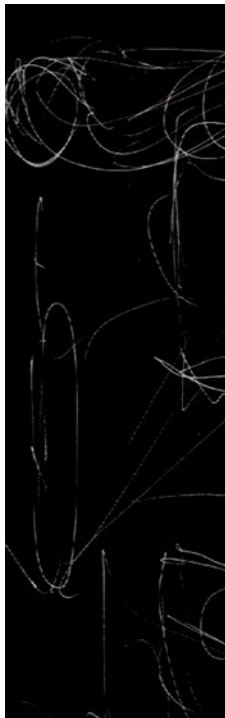

“ With this product, I wanted to go back to the archetype of water distribution: a simple tube (originally a hose), from which water flows without technological mediations. The innovation lies in water management, where the whole body becomes the handle.”

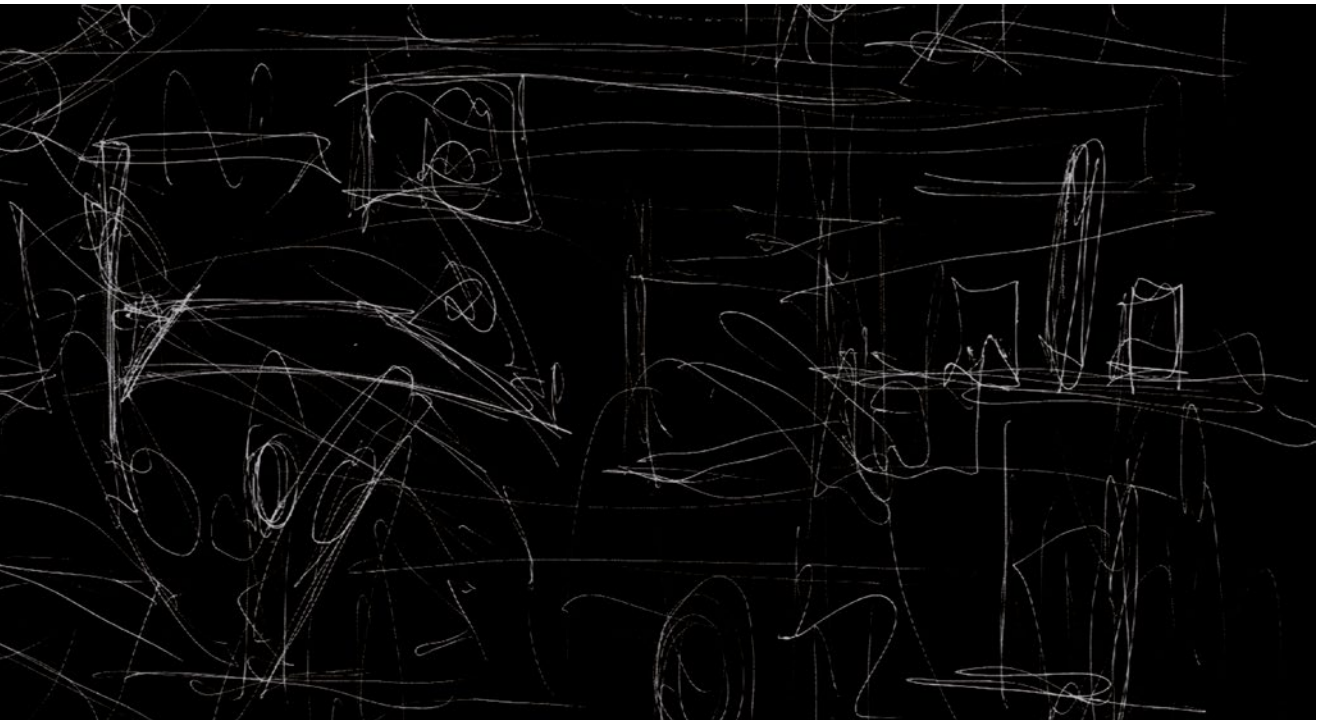

Con questo prodotto ho voluto ritornare all'archetipo della distribuzione dell'acqua: un semplice tubo (all'origine canna) dal quale sgorga senza mediazioni tecnologiche. L'invenzione sta nella gestione dell'acqua dove tutto il corpo diventa maniglia.

Avec ce produit, j'ai voulu revenir à l'archétype de la distribution de l'eau: un tube simple (à l'origine une tuyau d'arrosage) duquel elle jaillit sans médiation technologique. L'innovation concerne la gestion de l'eau, du moment que le corps entier du robinet devient la poignée de commande.

”

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.
 Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

POWA 2.0

The smartest and most intuitive electronic faucets we've ever designed.

I rubinetti elettronici più intuitivi e intelligenti che abbiamo mai progettato.

Les robinets électroniques les plus intuitifs et intelligents que nous ayons jamais conçus

The Powa 2.0 collection offers a range of four electronic mixers, washbasin or wall mounted washbasin, capable of combining technology and high functionality.

By reducing water consumption thanks to its infrared electronic controls, the Powa 2.0 collection makes its faucets perfect for all the public and commercial spaces.

La collezione Powa 2.0 offre una gamma di quattro miscelatori elettrici, capaci di combinare innovazione tecnologica e alta funzionalità. Riducendo i consumi idrici grazie a comandi elettronici a infrarossi, la collezione Powa 2.0 rende i suoi rubinetti perfetti per tutti gli spazi, privati e commerciali.

La collection Powa 2.0 propose une gamme de quatre mitigeurs électroniques, lavabo ou lavabo mural, capables de combiner technologie et haute fonctionnalité. En réduisant la consommation d'eau grâce aux commandes électroniques infrarouges, la collection Powa 2.0 rend ses robinets parfaits pour tous les espaces, publics et commerciaux.

REFLEX

The precision of a shutter, the simplicity of one click.

La precisione di un obiettivo, la semplicità di un clic.
La précision d'un objectif, la simplicité d'un clic

Reflex comes from a deep sense of renovation, from the desire to overturn rules and start from scratch, laying out new narratives without taking anything for granted. This is why Reflex is provided with a simple and intuitive remote control, which enables to activate the water supply from any angle. The control rings, similar to focusing devices, regulate the flow of hot and cold water, in a simple gesture.

Reflex nasce da un profondo spirito innovatore, dalla voglia di ribaltare le regole e di ripartire dalle basi, per tracciare nuove trame senza dare più nulla per scontato. Ecco perché Reflex è dotata di un comando remoto semplice ed essenziale, che permette di attivare l'erogazione da qualsiasi angolatura. Le ghiera di comando, simili a dispositivi di messa a fuoco, regolano il flusso d'acqua calda e fredda con un semplice gesto.

Reflex est née d'un profond esprit novateur, de la volonté de renverser les règles et de revenir aux fondements pour tracer de nouveaux récits, sans plus rien tenir pour acquis. C'est parce que Reflex est équipée d'une commande à distance simple et essentielle, qui permet d'activer la fourniture d'eau de tout coin. Les bagues de commande, comme des sélecteurs de mise au point, règlent le débit d'eau chaude et froide par un geste simple.

Reflex

A unique concept inspired by the camera lens by Pierattelli Architetture.

Un concept unico ispirato all'obiettivo della macchina fotografica firmato
Pierattelli Architetture.

Un concept unique inspiré par l'objectif de la caméra de Pierattelli Architetture.

Just as you adjust the lens focus to capture the best moment, you can "tune" Reflex' ring to experience the ideal water flow.

Analogies can be found not only in the design but in the functionality. The hot and cold water controls recall the easy and intuitive use of the lens' focus rings. A creative concept that integrates versatility and variety. Reflex thanks to an original synergy inspired by the world of photography, offers new horizons for the aesthetic standards of the bathroom.

Proprio come si mette a fuoco un obiettivo per cogliere il momento migliore, così si può azionare il comando di Reflex per consentire il flusso dell'acqua ideale per ognuno. Il richiamo al dispositivo ottico non si trova solo nella forma, ma anche nel funzionamento: le ghiera di messa a fuoco della fotocamera diventano le manopole di comando di acqua calda e fredda, consentendo un utilizzo facile e intuitivo.

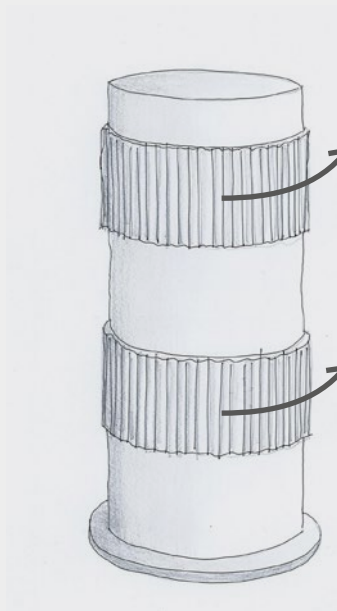

Un concept creativo che permette di integrare versatilità e varietà. In linea con le tendenze contemporanee, Reflex, attraverso una originale connessione di concetti ispirati al mondo della fotografia offre nuovi orizzonti per i canoni estetici del mondo del bagno.

Tout comme la mise au point d'un objectif pour saisir le moment idéal, il est possible d'actionner la commande Reflex pour obtenir le débit d'eau convenable.

L'allusion à l'objectif optique n'est pas que dans la forme, mais on la retrouve aussi au niveau des fonctions: les sélecteurs de mise au point deviennent ici les bagues de réglage de l'eau chaude et froide, garantissant un usage simple et intuitif.

Un concept créatif qui permet d'intégrer éclectisme et variété. Conformément aux tendances contemporaines et s'inspirant au monde de la photographie pour tracer des réseaux conceptuels inédits, Reflex offre des horizons nouveaux à l'esthétique de la salle de bain.

RUBACUORI

The sober lines of the square give shape to full and empty volumes.

Le sobrie linee del quadrato danno forma a volumi pieni e vuoti.
Les lignes sobres du carré façonnent des volumes pleins et vides.

"The shortest distance between two points is given by a straight line." - Archimedes
Andrea + Davide Bregoli have added to these points and these straight lines the harmony that was necessary to create a collection like RUBACUORI, the result of the collaboration and attempts of the two designers to make even such a rigorous object soft. RUBACUORI is the collection intended for geometric, logical and everyday environments that require consistency in the study of details.

A sober and essential line, suitable for modern bathrooms with a strong character. Rubacuori is able to seduce everyone with its geometric shapes, always in vogue.

"La distanza più breve tra due punti è data da una linea retta." - Archimede
Andrea + Davide Bregoli hanno aggiunto a questi punti e a queste linee rette l'armonia che era necessaria per creare una collezione come Rubacuori, frutto della collaborazione e dei tentativi dei due designer di rendere morbido anche un oggetto così rigoroso. Rubacuori è la collezione destinata ad ambienti geometrici, logici e quotidiani che necessitano di coerenza nello studio dei dettagli. Una linea sobria ed essenziale, adatta a bagni moderni dal carattere deciso. Rubacuori è il rubinetto capace di conquistare tutti con le sue forme geometriche sempre in voga.

"La distance la plus courte entre deux points est donnée par une ligne droite." - Archimède.
Andrea + Davide Bregoli ont ajouté à ces points et à ces lignes droites l'harmonie qui était nécessaire pour créer une collection comme Rubacuori, résultat de la collaboration et des tentatives des deux designers de rendre doux même un objet aussi rigoureux. Rubacuori est la collection destinée aux environnements géométriques, logiques et quotidiens qui nécessitent une cohérence dans l'étude des détails. Une ligne sobre et essentielle, adaptée aux salles de bain modernes au caractère résolu. Rubacuori est le robinet capable de conquérir tout le monde avec ses formes géométriques toujours en vogue.

SOHO + SOHO WOOD

Pure Rationality.

Razionalità allo stato puro.
Rationalité pure.

Inspired by the Italian rationalism of the 1950s, Soho is the IB collection with simple and linear shapes that enhance the maximum functionality of the faucet. The body is made of brass and the lever is available in various finishes, including wood. All design variations refer to the geometries of essentiality and the beauty of an object built to fulfill a unique and primary function: to open and close the water in the most intuitive way possible.

Ispirata al razionalismo italiano anni '50, Soho è la collezione IB dalle forme semplici e lineari che esaltano la massima funzionalità del rubinetto. Corpo in ottone e leva disponibile in varie finiture, legno compreso. Tutte le declinazioni del design rimandano alle geometrie dell'essenzialità e alla bellezza di un oggetto costruito per assolvere a una funzione unica e primaria: aprire e chiudere l'acqua nel modo più intuitivo possibile.

Inspirée du rationalisme italien des années 1950, Soho est la collection IB avec des formes simples et linéaires qui améliorent la fonctionnalité maximale du robinet. Corps en laiton et levier disponible en différentes finitions, y compris le bois. Toutes les déclinaisons du design renvoient aux géométries de l'essentialité et à la beauté d'un objet construit pour remplir une fonction unique et primaire : ouvrir et fermer l'eau de la manière la plus intuitive possible.

SUPERBOX

**It make even the simplest
and everyday gesture funny
and thrilling.**

Rende divertente e stimolante anche il gesto più semplice e quotidiano.
Il rend amusants et stimulants même les gestes les plus simples et quotidiens.

There are simple faucets, and then there's Supebox. This collection is able to make even the simplest and everyday gesture funny and thrilling. An innovative and exciting joystick lever steers the water pouring, just like a video game. The absence of an aerator allows the water to flow neatly and sharply from the spout, as fast as a superhero's blade.

Esistono dei semplici rubinetti, e poi c'è Supebox. Questa linea rende divertente e stimolante anche il gesto più semplice e quotidiano. La fuoriuscita dell'acqua è pilotata da una leva a joystick innovativa e appassionante, proprio come un videogioco. L'assenza di aeratore permette all'acqua di fluire dalla bocca in maniera decisa e tagliente, veloce come la lama di un supereroe.

Il y a des robinets simples, et puis il y a Supebox. Cette collection rend amusants et stimulants même les gestes les plus simples et quotidiens. L'écoulement d'eau est piloté par un levier joystick innovateur et passionnant, à la manière d'un jeu vidéo. L'absence d'aérateur permet à l'eau de s'écouler de la bouche de façon résolue et nette, aussi rapide que l'épée d'un super-héros.

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.
 Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.
 Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

TAAAC

The round shape of square.

La forma tonda del quadrato.
La forme ronde du carré.

"Taaac, and it's already done!" A versatile project designed to simplify forms and functions, TAAAC draws its inspiration from the immediate and friendly design of the most widespread technological appliances, from their hybrid and variable forms, never completely round or square. The collection also proposes to minimize the faucet structure, in order to provide only what is really essential. Thus TAAAC becomes a symbol of practical immediacy and aesthetical hybridity, through a highly recognisable look.

"Taaac, ed è subito fatto!". Progetto versatile, volto a semplificare forme e funzioni, TAAAC prende ispirazione dal design immediato e affabile dei più diffusi apparecchi tecnologici, ispirandosi alle loro forme ibride e cangianti, mai completamente tonde né squadrate. La serie propone inoltre di ridurre al minimo le strutture del rubinetto, per fornire solo ciò di cui si ha veramente bisogno. TAAAC si fa così sinonimo di immediatezza funzionale e commistione di forme dall'alta riconoscibilità estetica.

"Taaac, et c'est déjà fait!" Projet éclectique visant à simplifier les formes et les fonctions, TAAAC s'inspire du design immédiat et aimable des appareils technologiques les plus connus, inspiré par leurs formes hybrides et changeantes, jamais complètement rondes ni carrées. La collection propose également de minimiser la structure du robinet pour ne pouvoir que ce qui est vraiment nécessaire. Ainsi, TAAAC devient un produit synonyme d'immédiateté fonctionnelle et de mélange de formes, à la forte identité esthétique.

TAAAC

DESIGN
FEDERICO CASTELLI

It's a collection of mixers with the idea of expressing a new universal and shared language in the bathroom context, simplifying shapes and interaction. It just makes things easy from many perspectives.

Una serie di rubinetti sintesi di un concept che ha come obiettivo stabilire un nuovo linguaggio universale e condiviso nell'ambiente bagno, semplificando forme, usi e funzioni.

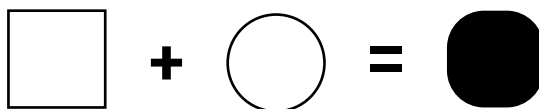

C'est une collection de mitigeurs qui exprime un nouveau langage universel et partagé dans la salle de bain, en simplifiant forme et interaction. Elle facilite les tâches de nombreux points de vue

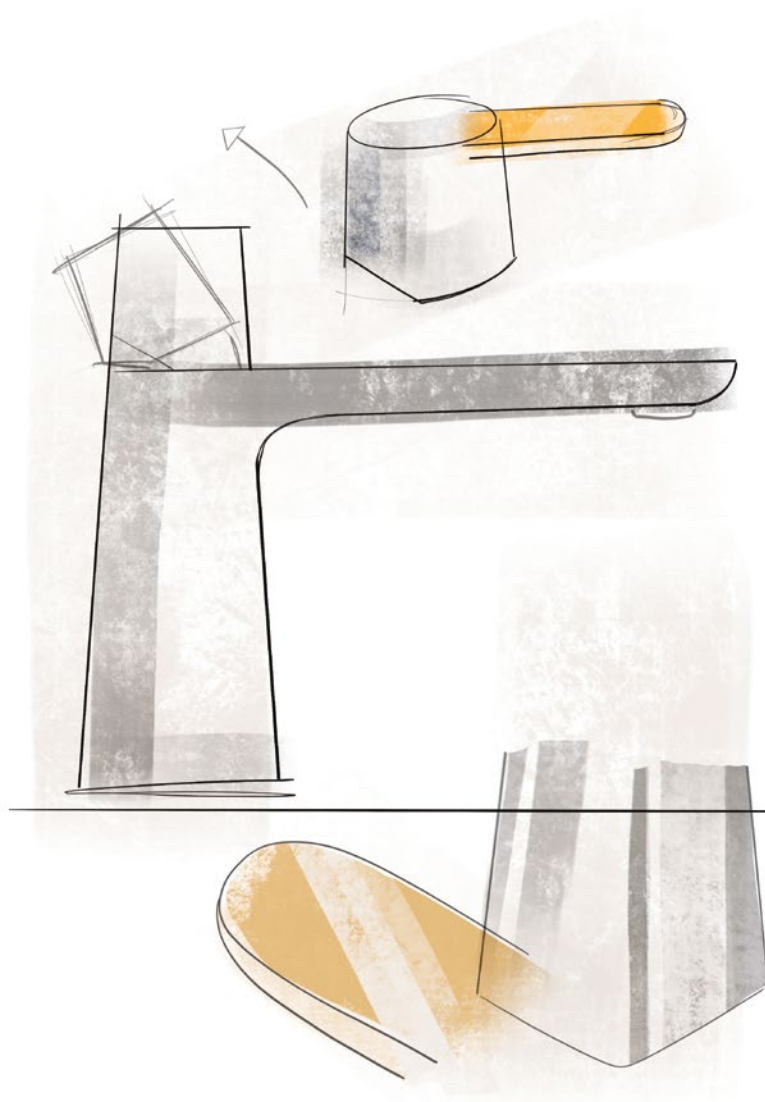

“ TAAAC expresses the idea of simplification, both in shape and interaction within the bathroom context. The idea with TAAAC was to shape a product of universal and shared language fitting any room and style.

TAAAC è sintesi di un concept che riduce al minimo forme, usi e funzioni nel mondo del bagno. L'obiettivo è dar forma a un prodotto dal linguaggio universale e condiviso, adatto a ogni ambiente e stile.

TAAAC se fait synthèse d'un concept visant à minimiser les formes, les usages et les fonctions dans le monde de la salle de bain. L'objectif est celui de concevoir un produit avec un langage universel et partagé, indiqué ”

! For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

TWITTER

The bathroom collection that speaks to everyone.

Twitter è la linea bagno che parla a tutti.
Twitter est la ligne qui s'adresse à tous.

With its simple and delicate shapes, Twitter is the bathroom collection that speaks to everyone, to the lovers of square lines as to those of the round forms, and it strikes for its essential refinement and delicate aesthetics. With its pleasing linear features, Twitter is the perfect collection for an sober and elegant bathroom.

Dalle forme semplici e delicate, Twitter è la linea bagno che parla a tutti, agli amanti del tratto squadrato come a quelli della forma arrotondata, e colpisce per la sua essenziale ricercatezza e delicatezza estetica. Con le sue fattezze piacevoli e lineari, Twitter è la serie perfetta per un bagno sobrio ed elegante.

Avec ses formes simples et délicates, Twitter est la ligne qui s'adresse à tous, aux amants de la ligne carrée comme à ceux de la forme arrondie, et frappe pour son raffinement essentiel et sa délicatesse esthétique. Avec ses formes agréables et linéaires, Twitter est la série parfaite pour une salle de bain sobre et élégante.

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

VINILE

All the beat of a brilliant collection.

Tutto il beat di una collezione brillante.
 Tout le rythme d'une brillante collection.

Vinile is the collection that turns up the volume on design, with an original concept that evokes the horizontal grooves typical of vinyl records, recalling a passion for LPs that has now returned to the forefront. The engravings on the faucet lever set the rhythm for the entire series, which is consistently adapted to each product, perfectly suited for both residential solutions and contract projects.

Vinile è la collezione che alza il volume del design, con un concept originale che evoca i solchi orizzontali tipici dei dischi in vinile, richiamando una passione per gli LP, ora tornata prepotentemente di moda. Le incisioni sulla leva del rubinetto danno il ritmo a tutta la serie che si declina in modo coerente su ogni prodotto, adattandosi perfettamente sia su soluzioni residenziali che all'interno di progetti contract.

Vinile est la collection qui élève le volume du design, avec un concept original qui évoque les rainures horizontales typiques des disques vinyles, rappelant une passion pour les LP, maintenant de retour à la mode. Les gravures sur le levier du robinet donnent le rythme à toute la collection en manière cohérente pour chaque produit, s'adaptant parfaitement aux solutions résidentielles et aux projets contractuels.

WAVE

Sinuous and rounded shapes, providing pleasure and a touch of surprise.

Forme sinuose e arrotondate che regalano piacere e un tocco di sorpresa.
Formes sinueuses et arrondies qui donnent plaisir et une touche de surprise.

Sinuous and rounded shapes, interspaced with more angular lines on the top, providing emotions, pleasure and a touch of surprise. The Wave collection is a perfect balance between functionality and style, and testifies Marco Acerbis' approach to design. The sinuous body of the faucet is opposed to the resolute and pronounced lines of the lever just above, with a slightly inclined aerator to avoid splashing. The form becomes function and the function becomes form, in an unusual and exciting harmony.

Forme sinuose e arrotondate, intervallate da linee più squadrate nella parte superiore, che regalano emozione, piacere e un tocco di sorpresa. La serie Wave è un perfetto equilibrio tra funzionalità e stile, e testimonia l'approccio di Marco Acerbis al design. Il flessuoso corpo del rubinetto lascia il posto poco più in alto ai tratti decisi e prominenti della leva e ad un aeratore leggermente inclinato per evitare gli schizzi. La forma diventa funzione e la funzione si fa forma, in un bilanciamento inusuale e stimolante.

Formes sinueuses et arrondies, entrecoupées par des lignes plus carrées au sommet, qui donnent émotion, plaisir et une touche de surprise. La collection Wave est un équilibre parfait entre fonctionnalité et style, et elle est témoin de l'approche de Marco Acerbis au design. Le corps sinueux du robinet laisse la place aux traits résolus et saillants du levier juste au-dessus, et à un aérateur légèrement incliné pour éviter les éclaboussures. La forme devient fonction et la fonction devient forme, dans un équilibre inédit et stimulant.

DESIGN
MARCO ACERBIS

Wave

“ The Wave faucet, with its curvy and square shapes, fully attests my approach to design: the constant search for the perfect balance between the function, inherent in the object, and the aesthetic element, which must be able to excite and surprise.

Il rubinetto Wave, con le sue forme a tratti sinuose e squadrate, testimonia appieno il mio approccio al design: la costante ricerca del perfetto equilibrio tra funzione, connaturata all'oggetto, e componente estetica, che deve saper emozionare e sorprendere.

Le robinet Wave, aux formes sinueuses et carrées au même temps, témoigne pleinement mon approche au design: la recherche constante d'un équilibre parfait entre la fonction inhérente à l'objet et la composante esthétique, qui doit exciter et surprendre.

”

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

WHYNOT?

Soft and sinuous features for your bathroom: Whynot?

Linee morbide e sinuose per il tuo bagno: Whynot?

Lignes douces et sinueuses pour votre salle de bain: Whynot?

A product with a light aesthetic, with soft and delicate lines, to better decorate your bathroom: Whynot? The sinuous figure of the Whynot? collection shows the quest for a light and complete article, able to summarize all the essential features in a product with tapered and transformative shapes. The perfect balance between the round base and the square spout, the lengthening of the shapes and the lightness of the couplings turn out in a collection designed with a precise and delicate touch, like the one of a paintbrush.

Un prodotto dall'estetica leggera, dalle linee morbide e delicate, per arredare al meglio il proprio bagno: e perché no? La sinuosità della collezione Whynot? denota la ricerca di un articolo leggero e completo, in grado di compendiare tutte le caratteristiche essenziali in un prodotto dalle forme affusolate e cangianti. L'equilibrio perfetto tra base tonda e bocca quadrata, il prolungamento delle forme e la leggerezza dei raccordi si risolvono in una linea progettata con un tocco preciso e delicato, come quello di un pennello.

Un produit à l'esthétique légère, aux lignes douces et délicates, pour mieux décorer votre salle de bain: et pourquoi pas? La sinuosité de la collection Whynot? dénote la recherche d'un article léger et complet, capable de résumer toutes les caractéristiques essentielles dans un produit aux formes fuselées et changeantes. L'équilibre parfait entre la base ronde et le bec carré, l'allongement des formes et la légèreté des raccords se retrouvent dans une collection projetée par des touches précises et délicates, comme celles d'un peintre.

WOW

A classic can be amazing always and everywhere.

Un classico è capace di stupire sempre e ovunque.
Un classique demeure incroyable toujours et partout.

If you like something, you don't change it, at most you can only improve it. WOW is a modern reinterpretation of a bathroom design icon. The modernity of the slim clean forms is integrated respecting the classic and elegant taste that distinguishes this emblematic product, since a classic cannot be touched, but only respected in its aptitude to amaze always and everywhere.

Se qualcosa ti piace non lo cambi, al massimo lo migliori. WOW è un'interpretazione in chiave odierna di un'icona del design per il bagno. La modernità delle forme slanciate e pulite si innesta nel rispetto del gusto classico ed elegante che contraddistingue questo prodotto emblematico. Perché un classico non si tocca, lo si rispetta nella sua capacità di stupire sempre e ovunque.

Si on aime quelque chose on ne va pas le changer, au plus on cherche à l'améliorer. WOW est une interprétation actuelle d'une icône du design pour la salle de bain. La modernité des formes élancées et nettes se greffe sur le goût classique et élégant qui caractérise ce produit emblématique. Parce qu'un classique ne peut pas être touché, il doit être respecté dans sa capacité d'émerveiller toujours et partout.

YESPLEASE!

Simple and thin lines for your bathroom.

Linee semplici e sottili per il tuo bagno.
Des lignes simples et très fin pour votre salle de bain.

The most distinguishing element of the collection is beyond any doubt the lever: subtle, intuitive and new, unlike any other. This collection fits perfectly into any type of bathroom thanks to sinuous shapes that alternate with strong lines, as is our tradition, to create a balance that is unique and immediate at the same time, ready to lead us to the only possible answer: YesPlease!

L'elemento più caratterizzante della collezione è al di là di ogni dubbio la leva: sottile, intuitiva e nuova, diversa da qualsiasi altra. Questa collezione si inserisce perfettamente in ogni tipologia di bagno grazie a forme sinuose che si alternano a linee decise, come da nostra tradizione, fino a creare un equilibrio capace di essere unico ed immediato allo stesso tempo, pronto a portarci all'unica risposta possibile: YesPlease!

L'élément le plus caractéristique de la collection est sans aucun doute le levier: fin, intuitif et nouveau, à nul autre pareil. Cette collection s'intègre parfaitement à tout type de salle de bains grâce à des formes sinueuses qui alternent avec des lignes fortes, comme le veut notre tradition, pour créer un équilibre à la fois unique et immédiat, prêt à nous conduire à la seule réponse possible : YesPlease !

!

For a correct installation it is NECESSARY that the external parts are mounted together with the universal concealed body.

Per una corretta installazione è NECESSARIO che le parti esterne siano montate contestualmente al corpo incasso universale.

Pour une installation correcte il est NÉCESSAIRE que les pièces externes soient montées en même temps que le corps universel.

AQUA

The latest generation thermostatic valves collection.

La collezione di valvole termostatiche di ultima generazione.
La collection de vannes thermostatiques de dernière génération.

Aqua is a new-generation collection of high-performance thermostats, which guarantees perfect temperature and jet controls thanks to its universal built-in bodies. The result of an innovative evolution, Aqua technology is now applied to complex shower systems, through an array of products that ranges from the two-way and three-way diverters to the one-way to five-way independent controls, for an autonomous and simple handling.

Aqua è una collezione di nuova generazione di termostatici ad alte prestazioni, che grazie a corpi incasso universali garantisce il perfetto controllo della temperatura e dei comandi doccia. Frutto di un'evoluzione innovativa, la tecnologia Aqua è ora al servizio di impianti doccia complessi, grazie a una gamma di prodotti che spazia da due deviatori, a due e a tre vie, fino ai comandi indipendenti da una a cinque vie, per una gestione autonoma e semplice.

Aqua est une collection de thermostatiques à haute performance de nouvelle génération qui, grâce à ses corps encastrés universels, assure un contrôle parfait de la température et des commandes douche. Fruit d'une évolution innovante, la technologie Aqua est à présent au service d'installations hydrauliques complexes, grâce à une gamme de produits allant de deux déviateurs, bidirectionnel et tridirectionnel, jusqu'aux commandes indépendants d'un à cinq voies, pour une gestion autonome et simple.

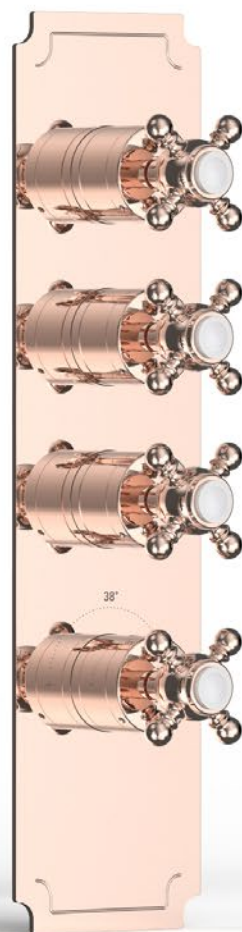

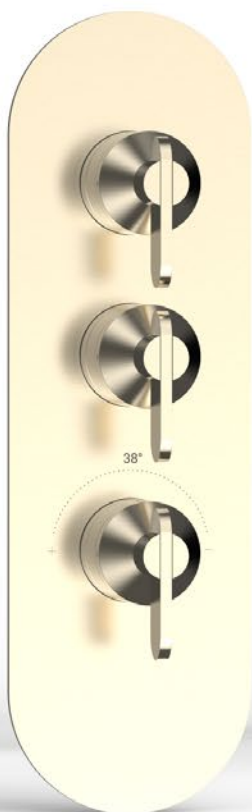

LEAD FREE

ZINC FREE

Features.

Caratteristiche.
Caractéristiques.

1 HIGH FLOW

High flow 3/4" thermostatic cartridge.
Flow rate: 45 liters per minute at 3 bars.

ALTA PORTATA

Cartuccia termostatica 3-4" ad alta portata.
Velocità del flusso: 45 litri al minuto a 3 bar.

HAUT DÉBIT

Cartouche thermostatique 3-4" à débit élevé.
Vitesse du débit: 45 litres par minute à 3 bars.

3 REVERSIBLE

Reversible service check valves with filters and improved stop mechanism.

REVERSIBILE

Valvole di ritegno reversibili con filtri e meccanismo di bloccaggio ottimizzati.

RÉVERSIBLE

Clapets de retenue réversibles avec filtres et mécanisme de blocage perfectionné.

5 SHUTOFF VALVE

Shut-off valve outlets: connections right, left or both sides simultaneously.

VALVOLA DI ARRESTO

Prese della valvola di arresto: attacco a destra, sinistra o sui due lati contemporaneamente.

VANNE D'ARRÊT

Prises de la vanne d'arrêt: à droite, à gauche ou des deux côtés simultanément.

2 UNIVERSAL

Universal inlets for 1/2" and 3/4" connections (built-in adaptors: female threads for 1/2" connections and male threads for 3/4")

UNIVERSALE

Prese universali per attacchi da 1-2" e 3-4" (adattatori a incasso: connettore femmina per attacchi da 1-2" e maschio per 3-4").

UNIVERSEL

Prises universelles pour connexions de 1-2" et 3-4" (adaptateurs encastrés: connecteur femelle de 1-2" et connecteur mâle de 3-4")

4 FINISHES

European made nickel plated solid brass rough and cartridges

FINITURE

Cartucce in ottone massiccio grezzo nichelato di fabbricazione Europea.

FINITIONS

Cartouches en laiton nickelé brut fabriquées en Europe.

6 REMOVABLE

Removable plug at the top for an extra independent shut-off valve connection.

RIMOVIBILE

Spina rimovibile nella parte superiore, per un attacco della valvola di arresto ultra indipendente.

AMOVIBLE

Fiche amovible dans la partie supérieure, pour une jonction extra indépendant de la vanne d'arrêt.

TECHNICAL DATA

Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES

Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI

Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI

Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES

Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES

Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

TECHNICAL DATA

Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

DATI TECNICI

Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

DONNÉES TECHNIQUES

Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

GENERAL FEATURES

Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

CARATTERISTICHE GENERALI

Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

CARACTERISTIQUES GENERALES

Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

TECHNICAL DATA

Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

DATI TECNICI

Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

DONNÉES TECHNIQUES

Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

GENERAL FEATURES

Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

CARATTERISTICHE GENERALI

Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

CARACTERISTIQUES GENERALES

Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

TECHNICAL DATA

Minimum dynamic pressure 0,5 bar

Maximum operational pressure 5 bar

Recommended operational pressure da 1 a 5 bar

Maximum hot water temperature 80°C

GENERAL FEATURES

Installation depth from 80 mm to 90 mm.

The intakes are fitted with G1/2" female G3/4"

Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).

The temperature regulator lever is pre-set at 38°C.

Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI

Pressione dinamica minima 0,5 bar

Pressione di esercizio massima 5 bar

Pressione di utilizzo raccomandata da 1 a 5 bar

Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI

Profondità di installazione da 80 mm a 90 mm.

Le entrate vengono fornite con filetto G1/2"

femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).

La maniglia di regolazione temperatura, viene presettata a 38°C.

Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES

Pression dynamique minimum 0,5 bar

Pression de service maximale de 5 bar

Pression d'utilisation conseillé de 1 à 5 bar

Température maximale de l'eau chaude 80 °C

CARACTERISTIQUES GENERALES

Profondeur de montage de 80 mm à 90 mm.

Les entrées sont fournis avec filetage G1/2"

femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).

La poignée de réglage de la température, est pré-réglée à 38 °C Si à l'intérieur du système

vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

TECHNICAL DATA

Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES

Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2" F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI

Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI

Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2" F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES

Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES

Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2" F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

TECHNICAL DATA

Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES

Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4"
Male threaded connection, the outlets only G1/2"F
(1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if
pressures in the system exceed 5 bar.

DATI TECNICI

Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI

Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2"
femmina G3/4" maschio, le uscite
solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene
presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di
pressione, se all'interno dell'impianto, si hanno
pressioni superiori a 5 bar.

DONNÉES TECHNIQUES

Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES

Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2"
femelle G3/4" mâle,
les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est
pré-réglée à 38 ° C Si à l'intérieur du système
vous avez des pressions supérieures à 5 bars, il
est recommandé l'utilisation d'un réducteur de
pression..

TECHNICAL DATA

Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES

Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI

Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI

Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES

AQUARIVA

Made to shine your wellness experience.

Progettato per far risplendere la tua esperienza wellness.
Créée pour faire briller votre expérience de bien-être.

A shining surface, pure and linear geometric shapes: the Aquariva collection, through its minimal design, achieves an eternal creation whose aesthetic perfection will seduce your eye and mind. The components are manufactured in a high-quality raw material, finely worked in our laboratories. The three refined showerheads, available in twelve finishes and two sizes, provide a flexible but constant aesthetic elegance, in order to express freely your inimitable personality.

Una superficie lucente, forme geometriche pure e lineari: la collezione Aquariva perviene, tramite il suo design minimale, a una creazione eterna la cui perfezione estetica saprà affascinare occhio e mente. Le componenti sono realizzate a partire da una materia prima di alta qualità, finemente lavorata nei nostri laboratori. I tre ricercati soffioni doccia, disponibili in dodici finiture e in due dimensioni, garantiscono un'eleganza estetica duttile ma costante, per dare sfogo alla tua inimitabile personalità.

Une surface brillante, des formes géométriques pures et linéaires: la collection Aquariva parvient, par son design minimal, à une création éternelle dont la perfection esthétique saura fasciner les yeux et l'esprit. Les composants sont fabriqués à partir d'une matière première de haute qualité, finement travaillée dans nos laboratoires. Les trois sophistiqués pommes de douche, disponibles en douze finitions et en deux tailles, garantissent une élégance esthétique à la fois souple et constante, pour donner libre cours à votre inimitable personnalité.

DROP

A true icon of the bathroom.

Icona del design per il bagno.
Icône du design pour la salle de bain.

A true icon of the bathroom design, Drop replicates the features of a drop of water, deformable to touch, guaranteeing a gentle and regular flow. Designed by Giulio Iacchetti, this product has challenged the traditional shower design by innovating its form and material. Thanks to its aesthetic and technological features, Drop is the most suitable choice for an original and incomparable high-quality bathroom.

Icona del design per il bagno, la collezione Drop riproduce le fattezze di una goccia d'acqua deformabile al tatto e garantisce un flusso delicato e uniforme. Progettato da Giulio Iacchetti, questo prodotto ha rimesso in discussione la tradizione del design per docce, innovandone forma e materiale. Per le sue caratteristiche estetiche e tecnologiche, Drop è la scelta più adatta per un bagno d'autore dal carattere inedito e di alta qualità.

Icône du design pour la salle de bain, la collection Drop reproduit la silhouette d'une goutte d'eau, déformable au toucher, et garantit un débit délicat et uniforme. Conçu par Giulio Iacchetti, ce produit a remis en question le traditionnel design de la douche, en innovant sa forme et ses matériaux. En raison de ses caractéristiques esthétiques et technologiques, Drop est le choix le plus convenable pour une salle de bains d'auteur au caractère innovant de haute qualité.

ONAIR 2.0

Not an evolution but a different point of view, more subtle.

Non un'evoluzione ma un punto di vista diverso, più sottile.
Pas une evolution mais un point de vue different, plus subtil.

A steel blade stretching out from the wall like an arm, from which a powerful waterfall or the delicate touch of a thin drizzle flow: the Onair 2.0 collection offers a multiple jet shower fit to every desire and an innovative design, aesthetically delicate and elegant but technologically advanced, ready to update the traditional concept of shower.

Una lama in acciaio che si protende come un braccio dalla parete, da cui scende una cascata dalla prorompente purezza o il tocco delicato di una pioggerella fine: la collezione Onair 2.0 offre un prodotto dal getto differenziato capace di soddisfare ogni desiderio e un design innovativo, esteticamente delicato ed elegante ma tecnologicamente all'avanguardia, pronto ad aggiornare e riformulare il tradizionale concetto di doccia.

Une lame en acier qui se penche par le mur comme un bras, d'où tombe une cascade impétueuse ou une fine bruine délicate: la collection Onair 2.0 propose un produit aux jets différenciés capable de satisfaire tous les désirs avec un design innovant, esthétiquement délicat et élégant mais technologiquement avancée, prêt à renouveler et subvertir le concept traditionnel de douche.

Onair 2.0

The Onair 2.0 wall-mounted showerhead allows water and air to mix, guaranteeing the choice between two easily adjustable jets, the traditional rain showerhead and the hand shower with waterfall jet. The anti-limestone silicone nozzles also prevent any obstruction, providing a strong and constant flow.

Onair 2.0

Il soffione a parete Onair 2.0 permette di miscelare acqua e aria, garantendo la scelta tra due getti facilmente regolabili, il tradizionale soffione a pioggia direzionabile e il doccino comprensivo di getto a cascata. La presenza di ugelli in silicone anticalcare previene inoltre ogni ostruzione, garantendo un flusso forte e costante.

Le pomme de douche mural Onair 2.0, grâce à sa capacité de mélanger eau et air, garantit le choix entre deux jets facilement réglables, le traditionnel pomme de douche au jet de pluie réglable et celui comprenant un jet à cascade. La présence de buses en silicone anticalcaire empêche en outre toute obstruction, garantissant un débit d'eau fort et constant.

FITTING INSTRUCTIONS | ISTRUZIONI DI MONTAGGIO | INSTRUCTIONS DE MONTAGE

The two 1/2" water connections have to be in line with the wall and their interax have to be 40 mm. The water outlets will be on the left for the showerhead (A) and on the right for the waterfall (B).

Portare le due uscite dell'acqua con dei collegamenti da 1/2" a filo muro e con un interasse tra loro di 35 mm. Rispettivamente gli attacchi sono a sinistra per il soffione (A) e a destra per la cascata (B).

Amener les deux sorties de l'eau avec des connexions de 1/2 à fil du mur et avec une distance entre eux de 35 mm. Respectivement, les attaques sont à gauche pour la tête de douche (A) et à droite pour la chute d'eau (B).

Once the fixing plate is correctly installed on the wall, connect the showerhead to the water connections and installation into the plate.

Una volta fissata a muro la piastra di montaggio collegare il soffione all'impianto idraulico e a sua volta ancorarlo alla piastra.

Une fois fixé la plaque de montage à la paroi, relier la tête de douche à la tuyauterie et à son tour l'ancrer à la plaque.

Profondité minimal bac à douche 910 mm

SHOWER COLUMNS

In order to satisfy every taste and need, we have created a family of shower columns, perfect for any setting and innovative in their technology. The Shower Columns are all characterized by essential and refined geometric lines, round or square, and by a service suitable for every need, thanks to their thermostatic controls and first choice mixers. All columns are made of brass, available in twelve finishes and supplied with anti-limestone silicone membranes.

Per soddisfare ogni gusto ed esigenza, abbiamo creato una famiglia di colonne doccia, perfette per ogni ambiente e innovative nella loro tecnologia. Le colonne doccia sono tutte caratterizzate da linee geometriche essenziali e raffinate, rotonde o quadrate, e da un servizio adatto ad ogni esigenza, grazie ai comandi termostatici e ai miscelatori di prima scelta. Tutte le colonne sono realizzate in ottone, disponibili in dodici finiture e fornite con membrane silconiche anticalcare.

Pour satisfaire tous les goûts et les besoins, nous avons créé une famille de colonnes de douche, idéales pour tout environnement et innovantes dans leur technologie. Les colonnes de douche se caractérisent par des lignes géométriques, rondes ou carrées, au design sobre et élégant et par un service fonctionnel à chaque besoin, grâce à ses commandes thermostatiques et ses mélangeurs de premier choix. Toutes les colonnes sont en laiton, disponibles en douze finitions et équipées de membranes en silicone anticalcaire.

SHOWERHEADS

Round and square rain over your head.

Pioggia rotonda e quadrata sopra la tua testa.
Une pluie ronde et carrée au-dessus de ta tête.

The Showerheads collection represents the best solution for those who look for character and originality in their shower. Available in sixteen different finishes, it offers a wide selection of showerheads, seven round and seven square, different in size and thickness, built-in or ceiling-mounted, thus offering a product adaptable to every individual taste and need and free from constraints.

La collezione Soffioni rappresenta la migliore soluzione per chi ricerca personalità e originalità nella propria doccia. Disponibile in sedici finiture diverse, offre un'ampia scelta di soffioni, sette di forma rotonda e altrettanti di forma quadrata, diversi in dimensioni e spessore, incassati o a soffitto, garantendo così un prodotto adattabile a ogni singolo gusto ed esigenza e libero da costrizioni.

La collection de Pommes de douche représente la meilleure solution pour ceux qui cherchent forte personnalité et originalité dans leur douche. Disponible en seize finitions différentes, offre un large choix de pommes de douche, sept de forme ronde et autant de forme carrée, de taille et d'épaisseur différentes, encastrés ou à plafond, garantissant un produit adaptable à chaque goût et besoin, et sans aucune contrainte.

Shower heads

SPOT

Built to make your shower shine

Realizzati per far brillare la tua doccia.
Réalisé pour faire briller votre douche.

Spot is a collection of perceptually hybrid shower heads that introduces a new type of shower aesthetic. At first sight it can leave you amazed, almost like in front of a waterfall of light. Spot, with its pure shapes, refers to the charm of a lighting element. The collection is defined by a cylindrical body, with different surfaces, which aims to create a particularly pleasant shower experience as well as aesthetic.

Spot è una collezione di soffioni percettivamente ibridi che introduce una nuova tipologia di estetica della doccia. A prima vista può lasciare spiazzati, quasi come di fronte ad una cascata di luce. Spot, con le sue forme pure, rimanda al fascino di un elemento di illuminazione. La collezione è definita da un corpo cilindrico, con connotazioni superficiali differenti, che vuole creare un'esperienza della doccia particolarmente piacevole oltre che estetica.

Spot est une collection de pommeaux de douche visuellement hybrides qui introduit une nouvelle typologie d'esthétique de la douche. À première vue, il peut vous laisser déplacé, presque comme devant une cascade de lumière. Spot, avec ses formes pures, renvoie au charme d'un élément d'éclairage. La collection est définie par un corps cylindrique, avec différentes connotations de surface, qui vise à créer une expérience de douche particulièrement agréable et esthétique.

PURO

Still or sparkling? Puro.

Naturale o frizzante? Puro
Plat ou pétillant? Puro

Puro, Puro+ and Puro Pro are the 3 systems of the line that makes its way into the market of kitchen taps with filtered water for purified water. Able to eliminate 99% of impurities; the models of the Puro collection allow you to choose and customize the functions, natural, cold or sparkling, according to your needs without sacrificing aesthetics. Design and technology absolutely made in IB. The faucet is machined from solid brass to offer a tactile feeling of robustness and solidity, with a versatile design that can adapt to any kitchen. 6 finishes available and endless technological details that make it a product of excellence.

Puro, Puro+ e Puro Pro sono i 3 sistemi della linea che si fa strada nel mercato dei rubinetti da cucina con filtraggio per l'acqua depurata. In grado di eliminare il 99% delle impurità; i modelli della collezione Puro permettono di scegliere e personalizzare le funzioni, naturale, fredda o gasata, in base alle proprie necessità senza rinunciare all'estetica.

Design e tecnologia assolutamente made in IB. Il rubinetto è lavorato dal pieno in ottone per offrire una sensazione tattile di robustezza e solidità, con un design versatile in grado di adattarsi a qualsiasi cucina. 6 le finiture disponibili e infiniti i dettagli tecnologici che ne fanno un prodotto di eccellenza.

Puro, Puro + et Puro Pro sont les 3 systèmes de la gamme qui font leur entrée sur le marché des robinets de cuisine avec filtrage pour eau purifiée. Capable d'éliminer 99% des impuretés; les modèles de la collection Puro vous permettent de choisir et de personnaliser les fonctions, naturelles, froides ou pétillante, selon vos besoins sans sacrifier l'esthétique.

Design et technologie absolument made in IB. Le robinet est usiné à partir du laiton massif pour offrir une sensation tactile de force et de solidité, avec un design polyvalent qui peut s'adapter à n'importe quelle cuisine. 6 finitions disponibles et une infinité de détails technologiques qui en font un produit d'excellence.

Features.

Caratteristiche.
Caractéristiques.

1 WATER FILTER

Filter out impurities as small as 0.5 micron, eliminates pollutants, chlorine and other undesirable flavours and odours.

Trattiene impurità fino a 0,5 micron, elimina inquinanti, cloro ed altri sapori e odori indesiderabili.

Il retient les impuretés jusqu'à 0,5 micron, élimine les polluants, le chlore et autres goûts et odeurs indésirables.

2 AUTONOMY

With 1 ppm of chlorine present in the water*: Mod. 350 capacity l/h 350, autonomy liters 15,000.

Con 1 ppm di cloro presente nell'acqua*: Mod. 350 portata l/h 350, autonomia 15.000 litri.

Avec 1 ppm de chlore présent dans l'eau* : Mod.350 débit 350 l/h, autonomie 15 000 litres.

3 RICH WATER

Filtered water with the same content of minerals salts.

Acqua filtrata con lo stesso contenuto di sali minerali.

Eau filtrée avec la même teneur en sels minéraux.

4 INSTANT WATER

Instant water, thanks to the integrated storage tank.

Acqua istantanea grazie alla tanica integrata.

De l'eau instantanée grâce au réservoir intégré.

5 EASY TO INSTALL

Easy connection to your home existing sink.

Refrigeratore collocabile in qualsiasi spazio della cucina.

Réfrigérateur placé dans n'importe quel espace de la cuisine.

6 ACCORDING TO ROLES

Material in contact with water comply with the requirements of D.M. 174/2004. Device comply with requirements of D.M. 25/12.

Apparecchio per il trattamento di acque potabili conforme a: DM 25/2012 - "Disposizioni tecniche concernenti apparecchiature per il trattamento di acque potabili". Direttiva 98/83/CE. DM174/2004.

Équipement pour le traitement de l'eau potable conformément au : Décret Ministériel 25/2012 "Dispositions techniques concernant les équipements pour le traitement de l'eau potable". Directive 98/83/CE. DM174 / 2004.

KIT / Assorted

Assortimento.
Assortiment.

Puro Pro is equipped with a kit to be stored under the sink mixer consisting of a carbonator refrigerator and a filter. The supply of not purified water is controlled in a simple way through a mixer, the purified water is supplied through the three separate levers which respectively control cold water, sparkling water and purified water at plant temperature.

Puro Pro è dotato di un kit da riporre sotto il mixer lavabo composto da un frigo gasatore (A) e un filtro depuratore (B). L'erogazione di acqua non depurata viene comandata in modo semplice attraverso un miscelatore (C), l'acqua depurata viene erogata tramite le tre leve distinte che comandano rispettivamente acqua fredda (D), acqua frizzante (E) e acqua depurata a temperatura dell'impianto (F)

Puro Pro est équipé d'un kit à installer sous l'évier composé d'un réfrigérateur carbonateur (A) et d'un filtre purificateur (B). L'alimentation en eau non purifiée est contrôlée de manière simple à travers un mélangeur (C), l'eau purifiée est fournie à travers les trois leviers qui contrôlent respectivement l'eau froide (D), l'eau pétillante (E) et l'eau purifiée à la température du système (F).

ACCIAIO

The form becomes an emblem for high professionalism.

La forma si fa simbolo di alta professionalità ed efficienza.
La forme devient emblème de haut professionnalisme

The Acciaio collection draws inspiration from a linear aesthetics and an innovative technology, blending together just like in a professional kitchen.

The clean and modern form, elegant in its sobriety, is nothing but the mirror of a all-round technological product, consisting of pull-out hand shower, moving spring and complete rotation, which guarantee the best procedures in an elegant and sophisticated environment, where the form becomes an emblem for high professionalism and efficiency.

La collezione Acciaio si ispira alla fusione tra un'estetica lineare e una tecnologia innovativa, tipica delle migliori cucine professionali. La pulizia e modernità della forma, elegante nella sua sobrietà, non è altro che lo specchio di un prodotto completo e tecnologico, composto da doccia estraibile, molla di movimento e da una rotazione completa, per garantire le migliori pratiche in un ambiente dall'elegante tocco estetico, in cui la forma si fa simbolo di alta professionalità ed efficienza.

La collection Acciaio s'inspire de la fusion entre une esthétique linéaire et une technologie innovante, typique des meilleures cuisines professionnelles. La pureté et modernité de la forme, élégante dans sa sobriété, n'est que le miroir d'un produit hautement technologique, composé d'une douchette extractible, d'un ressort de mouvement et d'une rotation complète, qui garantit les meilleures pratiques dans un environnement à la touche esthétique raffinée, où la forme devient emblème de haut professionnalisme et efficience.

LOFT

The boundless modern kitchen style.

Lo stile della cucina moderna senza confini.
Le style de cuisine moderne sans bornes.

Wide open rooms, clean and elegant lines, the modern style of bright and boundless spaces: Loft collection draws inspiration from the elegant lofts of contemporary cities, reinterpreted in the form of kitchen faucets with a modern and sophisticated look. The avant-garde technology, which includes pull-out hand shower, moving spring and complete rotation, matches with a linear and elegant look and with chromed finishes, adding even more refinement to this high-class product.

Gli ampi spazi aperti, le linee pulite ed eleganti, lo stile moderno di uno spazio luminoso e senza limiti: la collezione Loft trae ispirazione dalle eleganti abitazioni delle città moderne, reinterprete nella forma di rubinetti per cucina dall'aspetto moderno e ricercato. La tecnologia d'avanguardia, che include doccetta estraibile, molla di movimento e rotazione completa, è appaiata a un'estetica lineare ed elegante, completa di finiture cromate che aggiungono una maggiore ricercatezza a questo prodotto di alta classe.

Les grands espaces, les lignes pures et élégantes, le style moderne d'un milieu lumineux et illimité: la collection Loft s'inspire des élégantes demeures de la ville moderne, pour les réinterpréter sous forme de robinets de cuisine aux traits modernes et sophistiqués. La technologie d'avant-garde, composée par une douchette extractible, un ressort de mouvement et une rotation complète, est associée à une esthétique linéaire et élégante, complétée par des finitions chromées qui ajoutent encore plus de raffinement à ce produit haut de gamme.
